

Welcome to Sanitas Global Care

You can now enjoy all of the benefits of a healthcare policy adapted to your needs abroad.

Find out how to use it

Our medical team is always available to manage direct payment to the healthcare centre you are going to go to, so that you don't have to pay a thing.

You can contact us through any of the channels we offer. Find out more here and don't wait a minute longer.

With a simple call before you go to the doctor you can:

- Confirm the cover available.
- Avoid the procedure for claiming a reimbursement.
- But above all, **we will help you to get the best care, thanks to more than 40 years of international experience.**

Don't forget that you can also pay for the care and claim a reimbursement later.

However, we recommend using this option for less costly routine consultations only.

Find out how to claim it and other interesting details about your policy here.

And remember that **you can use your policy during travel to Spain.**

Go to Mi Sanitas to manage your online appointment in the most convenient way. In addition, **thanks to our video consultation your doctors are always very close by, wherever you are.**
