Preliminary clause

The present contract is bound by the matters set out in Act 50/1980 of 8 October on Insurance Contracts (Official State Bulletin of 17 October 1980), Act 20/2015 of 14 July on the Management, Supervision and Solvency of Insurers and Reinsurers and its implementing regulation (Royal Decree 1060/2015 of 20 November on the Management, Supervision and Solvency of Insurers and Reinsurers), Act 22/2007 of 11 July on the Distance Marketing of Financial Services for Consumers by the insurance distribution directive and the matters agreed upon in the General and Particular Terms and Conditions.

Clauses restricting the rights of Insured shall be applicable when highlighted in bold letters and specifically accepted.

Glossary of terms

For the purposes of this document of the **Sanitas Residents** insurance product, the following definitions apply:

INSURANCE TERMS

ACCIDENT
Bodily injury suffered while the policy is in force, stemming from an external, sudden, violent cause beyond the Insured's control.

STANDING MEMBERSHIP
This involves recognition to the Insured of certain rights due to standing membership in SANITAS, which will be specified in the Particular Terms and Conditions.

INSURED
Each person included in the policy and specified in the Particular Terms and Conditions, entitled to receive insurance benefits and who may or may not be the same as the Policyholder.

BENEFICIARY
Person to whom the insurance Policyholder acknowledges the right to receive the compensation or benefit arising from this contract, to the corresponding sum.

CO-PAYMENT
Participation of the Insured in the sum of the cost of the medical action or series of actions, according to the medical service required, received from professionals or the healthcare centres providing it and to be paid directly to SANITAS.

HEALTH QUESTIONNAIRE
Declaration that must be truthfully and fully completed and signed by the Policyholder or Insured before formalisation of the policy and used by SANITAS to assess the risk subject to insurance.

FRAUDULENT INTENT
Action or omission committed fraudulently or deceivingly with the intention of producing damage or obtaining a benefit that affects the interests of a third party.

INSURED'S HOME
The place where the Insured lives and which specifically appears on the policy's Particular Terms and Conditions.

INSURER OR INSURANCE COMPANY
SANITAS, Sociedad Anónima de Seguros the body corporate taking on the risk as agreed under this Agreement.

DEDUCTIBLE
Sum of medical and/or hospital expenses not included in the insurance cover that, according to the corresponding cover, is payable by the Policyholder or the Insured to the care provider.

PARTICIPATION IN COSTS
Prior to access to certain cover, the Insured must pay a single payment to SANITAS, which is specified according to the degree of difficulty of the cover.

QUALIFICATION PERIODS
Period of time (calculated by months elapsed from the effective date of the insurance) during which some of the covers included do not enter into force.

POLICY
Written document that contains the Terms and Conditions governing the insurance and the rights and duties of the parties and that is used as proof of existence thereof. The policy comprises: the insurance application, health questionnaire, General, Particular and Special Terms and Conditions and the supplements or appendices that are added to it either to complete or amend it.

PRE-EXISTING PATHOLOGIES
State or condition of health (illness, injury or defect), not necessarily pathological, suffered by the Insured prior to the date of signing the health questionnaire.

BENEFIT
Acceptance of payment of the care service by SANITAS of the guarantees committed to in the policy.

PREMIUM
The premium is the price of the insurance, i.e. the amount that the Policyholder or Insured must pay the Insurer. The premium invoice shall also contain any legally applicable surcharges, duties and taxes.

CLAIM
Every occurrence of consequences which are partly or wholly covered by the policy and forming part of the Insurance. The set of services arising from the same cause is considered to constitute a single claim.

EXTRA PREMIUM
This supplementary premium is established by way of express agreement shown in the Particular Terms and Conditions of the policy, in order to take on additional risk that would not be the object of insured cover where such agreement does not exist.

POLICYHOLDER
The physical person or body corporate that, together with SANITAS, signs this contract and who may be the same as or different to the Insured and to whom the obligations arising there from correspond, particularly the payment of the premium, except those that, due to their nature, are the obligation of the Insured.

HEALTH TERMS

HEALTHCARE
Act of assisting or caring for the health of a person.

HOSPITAL HEALTHCARE/WITH ADMISSION TO HOSPITAL
This is the care provided in a medical centre or hospital under admission to hospital, recording admission and the insured being admitted as a patient for at least one night in order to undergo medical treatment, diagnosis, surgery or therapeutic treatment.

OUT-OF-HOSPITAL CARE
Care provided without hospital admission or an overnight stay; this includes both outpatient care and care provided in a day hospital.

HEALTHCARE IN A DAY HOSPITAL
This is the medical, diagnostic, surgical or therapeutic care provided in a medical centre or hospital that requires non-intensive, short-duration care that does not require an overnight stay.

In the case of surgical treatment at a day hospital, it will be performed in the operating room under general, local or regional anaesthesia or sedation and requires non-intensive, short-duration care that does not require an overnight stay.

HEALTHCARE WITHOUT HOSPITALISATION / OUTPATIENT HEALTHCARE
This is the medical, diagnostic, surgical or therapeutic care provided in the hospital that does not involve admission or a day hospital.

In the case of an outpatient surgical treatment, it is performed in the consulting room on surface tissues and generally requires local anaesthesia.

SOCIAL CARE
Medical admission becomes social admission when a patient with functional deterioration or affected by age-related chronic processes and/or disorders have surpassed the acute phase of the disease and require healthcare but not under admission to hospital.

CYTOSTATIC MEDICINES
Cytotoxic medicine, which is used in oncological chemotherapy and can stop the proliferation of cancer by acting directly on the integrity of deoxyribonucleic acid chains (DNA) and cell division, inhibiting normal cell multiplication, of both healthy and cancer cells. They are a mixture of heterogeneous substances used in antineoplastic treatment.

CONSULTATION
Assistance and examination of a patient by a doctor, performing the necessary

examinations and medical tests to obtain a diagnosis or prognosis and prescribe treatment.

DIAGNOSIS
Medical opinion on the nature of a patient's disease or injury, based on assessment of his/her signs and symptoms and on the performance of additional diagnostic tests.

REGISTERED NURSE
Graduate in Nursing legally qualified and authorised to perform nursing activities.

ILLNESS
Any alteration of the state of health of an individual who suffers the action of a pathology that is not the result of an accident, which is diagnosed and confirmed by a legally recognised doctor or dentist and which requires professional medical care.

CONGENITAL DISEASE
A disease that exists at the time of birth as a result of hereditary factors or disorders acquired during pregnancy up to the time of birth. A congenital disorder may become manifest and be recognised immediately after birth, or be discovered later, at any time of the individual's life.

ACUTE CONDITION OR PROCESS
A condition/process that lasts up to 3 months from the date of the onset of symptoms.

CHRONIC CONDITION OR PROCESS
A condition/process that lasts for 6 months or more from the onset date of symptoms.

MAGISTRAL FORMULA
A magistral formula is the medicine intended for an individual patient, prepared by a pharmacist or under their direction and which is dispensed both in pharmacy offices and in hospital pharmaceutical services. This type of medicine must be prescribed by a healthcare professional, who must list all of the active ingredients, which include.

USER GUIDE TO DOCTORS AND SERVICES
Healthcare professionals and centres belonging to the medical network of this policy and recommended by SANITAS for the provision of the services included in the insurance. The Guide may undergo modifications during the validity period of the policy. There is a full, up-to-date list of the doctors and centres forming the medical network of this policy available to the insured at the SANITAS offices.

CONVENTIONAL ROOM
Single-unit room equipped with the necessary health care systems. Suites or rooms provided with an anteroom are not considered conventional.

HOSPITAL
Any legally authorised public or private establishment for the care of diseases or bodily injuries, provided with the means for performing diagnoses, medical treatments and surgical operations, and able to admit inpatients.

For the purposes of the policy, hotels, rest homes, spas, facilities intended primarily for the treatment of chronic diseases and similar institutions are not regarded as hospitals.

The centres, services and establishments, regardless of ownership, authorised by the health authorities of the autonomous communities and cities with a Statute of Autonomy are listed in the **Registro General de centros, servicios y establecimientos sanitarios**, of the Ministry of Health. Centres, services and establishments, regardless of ownership, not within the national territory must appear accredited as healthcare establishments according to the law applicable in each country.

PROCEDURE
The action of subjecting a person with a disease to the necessary control or examination, carrying out the corresponding tests, for either diagnostic or therapeutic purposes, for the symptoms or alterations reported during the consultation with the healthcare professional. There are different types of procedures: surgical, therapeutic and diagnostic. In all cases, they must be carried out by a competent specialist doctor in an authorised centre (hospital or outpatient

centre) that usually requires a specific room with the necessary equipment.

INJURY

Any pathological change that takes place in a tissue or in a healthy organ and which entails anatomic or physiological damage, i.e., a disturbance of physical integrity or functional balance.

OSTEOSYNTHESIS MATERIAL

Pieces or elements of metal or of any other kind used for joining the ends of a fractured bone or for welding joint ends.

ORTHOPAEDIC MATERIAL

External anatomical parts of any kind used to prevent or correct body deformities such as, for example, a back brace, harness or crutches.

MEDICINE

Any substance or combination of substances presented as having properties of treating or preventing disease in human beings or that may be used by or administered to human beings with a view to restoring, correcting or modifying a physiological function by exerting a pharmacological, immunological or metabolic action or making a medical diagnosis.

Coverage by the insurer will be contingent upon the prescription of the most efficient therapy available at the time, by active ingredient and always using the generic drug or biosimilar if authorised by the Spanish Agency of Medicinal Products and Medical Devices and marketed in Spain.

PHYSICIAN

Doctor or Bachelor in Medicine legally trained and authorised for medical or surgical treatment of the disease or injury that gives rise to a cover contained in the policy.

COMPLEX THERAPEUTIC PROCEDURES

A complex therapeutic method is defined as any method that requires a healthcare or hospital setting with specialist technological equipment, facilities and/or healthcare professionals in order to be carried out.

Furthermore, in the case of invasive procedures, the healthcare facility where they are carried out must have sufficient staff and equipment to deal with any complications the patient may suffer as a direct or indirect result of the procedure.

By way of example, this would include all procedures relating to lithotripsy, radiotherapy, chemotherapy, interventional radiology, haemodynamics, speech therapy, endoscopy, and those covered procedures requiring the use of lasers, shock waves or pelvic floor rehabilitation.

COMPLEX THERAPEUTIC METHODS DURING THE CONSULTATION

A complex therapeutic method during the consultation is defined as a complex therapeutic method performed by the doctor/healthcare professional in charge of the patient's care during the consultation to treat their condition. These methods include, for example, language and/or speech therapy procedures, electrocoagulation of skin lesions, lacrimal probing and catheterisation, extraction of a foreign body during an ENT consultation, therapeutic controls during an allergy consultation, joint injections performed during the consultation.

SIMPLE THERAPEUTIC PROCEDURE

A simple therapeutic procedure is defined as a therapeutic procedure prescribed by a doctor on the medical chart during the consultation for which highly complex equipment and medical staff are not required, as it is carried out by non-medical healthcare staff. This header also includes wound treatment, injectable drugs, some types of physiotherapy, etc.

CHILDBIRTH

The expulsion of one or more newborn children and the related placentas from the interior of the uterine cavity to the exterior. Normal or ‘at term’ childbirth occurs between week 37 and week 42 after the date of the last menstruation. Childbirth occurring earlier than 37 weeks qualifies as premature; childbirth occurring after 42 weeks qualifies as post-term.

ORGAN DISEASE
Structural injury to tissue or organs of the human body.

PROSTHESES
Any element of any kind that temporarily or permanently replaces the absence of an organ, tissue, organic fluid, member or part of any of these. By way of example, **this definition encompasses mechanical, joint prostheses, intraocular lenses, medication reservoirs, vascular prostheses, etc.**

BASIC DIAGNOSIS TEST
This test is essential for diagnosing a disease, regardless of whether the test is simple or complex (e.g. blood in faeces, cervical cytology, colonoscopy, etc.).

COMPLEX DIAGNOSIS TEST
A complex diagnostic test is defined as any test that requires a healthcare facility or hospital with technical equipment and specialised health professionals in order to perform it and/or to interpret the results due to their complexity. Similarly, the healthcare facility where it is performed must have appropriate staff and resources to address any complications that the patient might experience as a direct or indirect consequence of the test. For example, this includes all tests: CT, MRI, neurophysiology, nuclear medicine, genetic, molecular biology, endoscopy, haemodynamics, interventional radiology, etc.

COMPLEX DIAGNOSTIC TESTS DURING THE CONSULTATION
A complex diagnostic test during the consultation is defined as a complex diagnostic test performed by the doctor/healthcare professional in charge of the patient's care during the consultation to help determine a diagnosis. These tests include, for example, ultrasound scans, eco-doppler, allergy prick tests, contact testing (patch/epicutaneous testing).

SIMPLE DIAGNOSTIC TEST
A simple diagnostic test is defined as a test prescribed by a doctor on the medical chart during the consultation for which highly complex equipment and specific interpretation by a specialist are not required. This header will include simple blood and urine tests and simple radiology.

PSYCHOLOGY
A branch of healthcare that studies human behaviour and mental processes, and applies this knowledge to the promotion of mental wellbeing, as well as to the prevention, assessment and treatment of psychological disorders, in accordance with the guidelines set out by the World Health Organisation and current professional regulations.

RADIOPHARMACEUTICALS
These are medicines that contain a small amount of an active ingredient, known as a tracer, which is labelled with a radionuclide, thereby enabling the emission of a dose of radiation used in diagnostic and therapeutic procedures.

NEWBORN
Person in the life stage of the first four weeks after birth.

HOME SERVICES
Visit to the insured's home at the Insured's request of a general practitioner, paediatrician or registered nurse, when the insured is unable to travel to attend the consultation due to their illness, provided that SANITAS has an arrangement for providing the service in this place.

EMERGENCY CARE SERVICES
Assistance in justified circumstances both at the Insured's home or anywhere else within the national territory where the Insured is, always so long as SANITAS has an arrangement for the provision of the service in this place. The service will be provided by a GP and/or registered nurse.

TREATMENT
All means (hygienic, pharmacological, surgical or physical) primarily directed to cure or relieve a disease after it has been diagnosed.

EMERGENCY
An "emergency" is defined as any clinical situation which does not pose a threat to the

patient’s life or cause irreparable harm to their physical well-being, but which requires prompt medical attention.

LIFE-THREATENING EMERGENCY / MEDICAL EMERGENCY

A life-threatening emergency is a situation that requires immediate medical care as a delay could prove life-threatening or lead to irreparable harm to the patient's physical integrity which could involve the loss or significant deterioration of a function, member or body organ.

Clause I: Purpose of the Insurance

Within the limits and terms and conditions set out in the Policy and provided that the Policyholder has previously paid the corresponding premium, co-payments and deductibles and after the Policyholder has signed the contract, SANITAS offers its Insureds an extensive appointed chart of professionals, clinics and hospitals for their medical, surgical and hospital care, **for all types of conditions or injuries included,** according to standard medical practice, in the specialities and modules included in the cover of this Policy. SANITAS will cover the cost via direct payment to the appointed professionals or centres that provided the Insured with the service and the payment to the customer if the reimbursement module was used, provided that the aforesaid insurance modality is covered by this policy. **In all cases, these services must be provided by professionals and medical centres and hospitals that meet all of the legal requirements for conducting their business in the national territory and within their respective specialty, defined according to the accepted training plan according to the corresponding body of the activity in question.**

Clause II: Benefits

The benefits covered by this policy are conditional on compliance with the qualifying periods indicated below and always when they are conditions subsequent to the contracting of the policy and not known by the insured or in case of prior conditions known to the insured, were declared to the insurance company by the insured when taking out the policy without the insurance company excluding these conditions.

PRINCIPAL BENEFITS

Accreditation of the procedures and services corresponding to a medical speciality, that is, the services that a healthcare professional from this speciality can perform, are based on the Clasificación Terminológica y Codificación de Actos y Técnicas Médicas (Nomenclátor) of the Spanish Medical Colleges Organisation.

In general, and with the limits and exclusions set out in the terms and conditions of this policy, the healthcare services covered correspond to the following specialities:

1. Primary care

1.1. General Medicine

This includes medical care in a healthcare centre, indication and prescription of diagnosis tests and procedures (blood tests, conventional radiology, etc.) during the days and times established for this purpose by the doctor. It includes also home services when, for reasons attributable only to the Insurer's illness, he/she is prevented from attending the consulting room.

In emergencies the Insured shall go to the permanent emergency services or else contact SANITAS's telephone service.

1.2. Paediatrics and Childcare

Includes the care of children **up to the age of 15**, both in the surgery and at home, as well as the referral for and prescription of tests and diagnostic procedures (blood tests, conventional radiology, etc.), subject to the same rules as those mentioned above for family medicine cover.

1.3. Nursing Service

This includes care provided by nursing staff in the clinic and at patients' homes.

2. Emergencies

It includes healthcare in the event of emergency. It will be provided in the permanent emergency centres agreed with SANITAS and listed in the User Guide to

Doctors and Services corresponding to this product.

In justified circumstances, the Insured will be treated at the place where he or she is by the round-the-clock emergency services, **only in those towns in which SANITAS has engaged such service.**

Sanitas 24 Hours

Telephone service that provides information from a medical team, which will advise the Insured about his/her questions of medical character, treatments, medication, analysis interpretation, etc., 24 hours a day, 365 days a year.

3. Medical specialities

3.1. Allergology

Includes determination of complete allergen-specific IgE (natural extracts) in blood tests, including recombinant allergens. **The IgE antibody qualitative test and molecular diagnosis of the allergy (microarrays) are excluded.**

3.2. Clinical Analysis

Dysbiosis tests, ALCAT food sensitivity tests, qualitative antibody screen kit and multiple PCR tests are not included.

3.2.1. Genetic Studies

Coverage applies exclusively to genetic tests performed on affected or symptomatic patients whose purpose is to diagnose a specific condition that cannot be diagnosed by other tests or complementary investigations, or those that are essential for prescribing treatment (with the exception of genetic tests expressly excluded in the 'Excluded Cover' clause).

Genetic tests with low diagnostic yield are also excluded from cover; that is, where the probability of diagnosing the condition by carrying out the genetic test is less than 10%.

Prior authorisation from SANITAS is required, following assessment of the medical report.

This includes testing for the BRCA1 and BRCA2 genes and the 18-gene panel for the investigation of hereditary breast and ovarian cancer using peripheral blood samples, in the following cases:

A) Patients with no personal history of breast or ovarian cancer, where any of the following circumstances apply:

- A first-degree relative who is a carrier of one of the genes associated with a predisposition to hereditary breast or ovarian cancer.
- Two or more first- or second-degree relatives who have been diagnosed with breast cancer before the age of 50.
- Two or more first- or second-degree relatives diagnosed with ovarian cancer, regardless of their age at diagnosis.
- Two or more first- or second-degree relatives diagnosed with breast cancer before the age of 50 and with ovarian cancer.

B) Patients with a personal history of breast cancer diagnosed at the age of 50 or over, where any of the following circumstances apply:

- Two or more first- or second-degree relatives diagnosed with breast cancer before the age of 50.
- Two or more first- or second-degree relatives who have been diagnosed with ovarian cancer.
- Two or more first- or second-degree relatives diagnosed with breast cancer before the age of 50 and with ovarian cancer.

C) Female patients who meet any of the following criteria:

- Breast cancer diagnosed before the age of 50.
- Ovarian cancer.
- A history of breast cancer and ovarian cancer.
- Triple-negative breast cancer diagnosed before the age of 60.
- Bilateral breast cancer.
- Multicentric breast cancer.

D) Male patients diagnosed with breast cancer, regardless of their age at diagnosis.

E) a patient with ovarian cancer.

F) a patient with ovarian cancer and breast cancer.

Prior authorisation from SANITAS is required following assessment of the medical report.

The 24-gene panel for the investigation of hereditary colorectal cancer in peripheral blood is included exclusively in the following circumstances:

- Colon cancer <50 years
- Endometrial cancer <50 years
- Cancer of the digestive tract <50 years
- > 5 colon polyps <45 years
- Family history: Two or more first-degree relatives with gastrointestinal cancer or endometrial cancer <50 years
- Family history: One or more first-degree relatives with both colon cancer and endometrial cancer

Prior authorisation from SANITAS is required after assessment of the medical report.

HLA DQ2/DQ8 molecule study is included **for under 18s that meet the following three criteria only:**

- **with justified clinical suspicion**
- **positive IgA anti-tissue transglutaminase antibodies in blood with values that are 10 times higher than the normal value**
- **positive IgA anti-endomysial antibodies in blood**

Includes the liquid biopsy test for detecting positive EGFR T790M mutation in patients with non-small cell lung cancer after progression.

Prior authorisation from SANITAS is required after assessment of the medical report.

It excludes HLA class I and II DNA typing, PCA3 study, genome sequencing, gene exome study, microarray, pharmacogenetics (except for the study for diagnosing dihydropyrimidine dehydrogenase deficiency) and gene therapy.

3.3. Anatomic Pathology

Includes the performance of therapeutic targets: BRAF, ALK, K-RAS, N-RAS, HER2, EGFR, C-KIT, ROS-1, PDL-1, microsatellite instability in colon cancer, MGMT methylation in brain tumours, PIK3CA, somatic BRCA1 and BRCA2 in ovarian cancer prior to the administration of certain pharmaceutical products, provided that the summary of product characteristics as established by the Spanish Agency of Medicinal Products and Medical Devices requires that such targets be determined. These criteria also apply to the speciality of genetic testing.

3.4. Anaesthesiology

3.5. Angiology and Vascular Surgery

3.6. Digestive System

The technique for submucous endoscopic dissection **is only included for the treatment of lesions of pre-malignant or incipient malignant colorectal/gastric mucosa in which conventional polypectomy has been ruled out and where surgical treatment is being considered.** Prior authorisation from SANITAS is required after assessment of the medical report.

MR-enterography is included.

Barret radiofrequency treatment of the oesophagus **for extensive low-grade dysplasia over 5 cm and moderate or high-grade dysplasia is included.**

Prior authorisation from SANITAS is required after assessment of the medical report.

This includes advanced endoscopic retrograde cholangiopancreatography (ERCP) for the treatment of complex gallstones and unexplained biliary strictures. Prior

authorisation from SANITAS is required, following assessment of the medical report.

Intragastric balloon treatment and any endoscopic treatment for obesity are excluded.

3.7. Cardiology

Includes a stress cardiac MRI, as well as the medication required to perform this test.

Only radiofrequency and cardiac cryoablation techniques are covered for the treatment of cardiac arrhythmias. Three-dimensional cardiac navigation in cardiac electrophysiology is included **exclusively for the following indications: atrial fibrillation, arrhythmias associated with congenital heart disease, hereditary ventricular arrhythmias and ventricular tachycardias associated with ischaemic scarring.**

Cardiac haemodynamics includes IVUS, cardiac OCT, pressure guides, and rotational ablation and intracoronary lithotripsy systems for the treatment of calcified coronary plaque. Prior authorisation from SANITAS is required following assessment of the medical report.

Percutaneous or transapical techniques for the replacement or repair of heart valves are excluded, except where all of the following criteria are met:

- The Insured must have severe aortic stenosis.
- Based on the clinical assessment, the patient is at high surgical risk or there is a contraindication to conventional open-heart surgery. In such cases, Sanitas will cover only the cost of the transcatheter aortic valve implantation (TAVI) procedure; the cost of the implanted heart valve will be borne by the Insured.

Prior authorisation from SANITAS is required, following assessment of the medical report.

Excludes implantable loop recorder.

3.8. Cardiovascular Surgery

Percutaneous or transapical techniques for the replacement or repair of heart valves are excluded, except where all of the following criteria are met:

- The Insured must have severe aortic stenosis.
- Based on the clinical assessment, the patient is at high surgical risk or there is a contraindication to conventional open-heart surgery. In such cases, Sanitas will cover only the cost of the transcatheter aortic valve implantation (TAVI) procedure; the cost of the implanted heart valve will be borne by the Insured.

Prior authorisation from SANITAS is required, following assessment of the medical report.

3.9. General and Gastrointestinal Surgery

Includes laparoscopic surgery. Laser and extirpation techniques for haemorrhoid treatment and treatment for sclerosis using elastic bands are included; **the elastic bands being covered by the Insured**.

3D Laparoscopy, Bariatric surgery for obesity, metabolic surgery for diabetes, lipoedema surgery and any other aesthetic surgical procedures are excluded.

3.10. Maxillofacial Surgery

Encompasses the diagnosis and surgical treatment of diseases and injuries affecting exclusively the lower jaw and upper jaw.

Dentistry treatments are excluded, as are cosmetic treatments and/or treatments targeting functional issues of the patient's mouth or teeth, such as orthognatic, pre-implant and pre-prosthesis surgery. Rhinoseptoplasty operations are excluded.

3.11. Traumatology and Orthopaedic Surgery

Includes arthroscopic surgery. Includes surgery involving surgical neuronavigation support exclusively for spinal surgeries involving four or more affected levels.

Endoscopic spinal surgery are excluded.

3.12. Paediatric Surgery

This is covered under the same terms and conditions as surgery for adults.

3.13. Reconstructive Surgery

Includes reconstruction of the affected breast after a mastectomy and remodelling of the contralateral healthy breast, the latter with **a maximum limit of one year** after cancer surgery.

Prior authorisation from SANITAS is required after assessment of the medical report.

The only techniques included in remodelling of the contralateral healthy breast are: breast reduction and mastopexy.

Septorhinoplasty operations and lipoedema surgery are excluded.

3.14. Chest Surgery

Includes an intensive post-operative respiratory rehabilitation programme during admission after chest surgery, which covers **up to 5 sessions**.

Includes hyperhidrosis treatment only if administered through surgery.

Prior authorisation from SANITAS is required after assessment of the medical report.

3.15. Dermatology

Includes hyperhidrosis treatment only if administered through surgery.

3.16. Endocrinology

3.17. Geriatrics

3.18. Haematology and Haemotherapy

Comprises autologous bone marrow and parentperipheral blood cell transplants **solely for treatment of haematological tumours.**

Leukocyte immunophenotypic study only covered in the study of leukaemias and lymphomas.

3.19. Internal Medicine

3.20. Nuclear Medicine

Contrast agents will be covered by SANITAS.

Includes positron emission tomography (PET), alone or combined with computed tomography (PET-CT) **only when the 18F-FDG, choline and PSMA radiotracers are used in the cases specified below and provided that it is performed for diagnostic purposes only**, requiring, in all cases, prior authorisation from SANITAS after evaluation of the doctor's report.

Indications covered for 18F-FDG:

A) Oncology:

A.1. Diagnosis:
- Characterisation of a solitary pulmonary nodule
- Detection of a tumour of unknown origin, as evidenced, for example, by cervical lymphadenopathy, liver or bone metastases.
- Characterisation of a pancreatic mass

A.2. Staging,
- Head and neck tumours, including guided biopsy
- Primary lung cancer
- Locally advanced breast cancer
- Oesophageal cancer
- Pancreatic carcinoma
- Colorectal cancer, particularly in cases of recurrence
- Malignant lymphoma
- Malignant melanoma, with a Breslow >1.5 mm or metastasis to lymph nodes at initial diagnosis

A.3. Monitoring the response to treatment:
- Malignant lymphoma
- Head and neck tumours

A.4. Detection in cases of reasonable suspicion of recurrence in cancer treatment:

- High-grade gliomas (grade III or IV)
- Head and neck tumours
- Thyroid cancer (non-medullary): patients with elevated serum thyroglobulin levels and a negative whole-body scan with radioactive iodine
- Primary lung cancer
- Breast cancer
- Pancreatic carcinoma
- Colorectal cancer
- Ovarian cancer
- Malignant lymphoma
- Malignant melanoma

B) for the following non-oncological indications (authorised by the Spanish Agency for Medicines and Health Products in the technical data sheet for 18-fludesoxyglucose (18 FDG)):

B.1- Cardiology
- Assessment of myocardial viability in patients with severe left ventricular dysfunction who are candidates for revascularisation, only when conventional imaging techniques are inconclusive.

B.2- Neurology
- Localisation of epileptogenic foci in the pre-surgical assessment of temporal lobe epilepsy.

B.3- Infectious or inflammatory diseases
Identification of abnormal foci to guide the aetiological diagnosis in cases of idiopathic fever.

- Diagnosis of infection in the case of:
  - Suspected chronic infection of the bones or adjacent structures: osteomyelitis, spondylitis, discitis or osteitis, even where metal implants are present
  - Diabetic patients whose feet are suggestive of Charcot neuroarthropathy, osteomyelitis or a soft-tissue infection
  - Painful hip replacement
  - Vascular prosthesis
  - Detection of septic metastatic foci in cases of bacteraemia or endocarditis.

- Detection of the extent of inflammation in the following cases:
  - Sarcoidosis
  - Inflammatory bowel disease
  - Vasculitis affecting the large blood vessels

- Monitoring of treatment:
  - Unresectable alveolar echinococcosis: detection of active parasite foci during medical treatment and after treatment has been discontinued.

Includes the performance of 18F-FDG PET-MRI scans **exclusively for oncological conditions.**

Indications covered for Colina:

A. Initial staging of prostate cancer in high-risk patients, in accordance with clinical guidelines.
B. Localisation of local, regional or metastatic recurrences in cases of increased serum concentration of prostate-specific antigen (PSA).
C. Parathyroid adenoma prior to surgery or when other diagnostic tests are inconclusive.
D. Parathyroid adenocarcinoma..

Indications covered for PSMA:

A. Initial staging of patients with high-risk prostate cancer before initial curative therapy.
B. Suspected recurrence of prostate cancer in patients with increasing levels of prostate-specific antigen (PSA) serum with negative test results after initial curative therapy.

This includes the use of the following radiopharmaceuticals for the indications detailed below: **sodium iodide (131I) for the treatment of hyperthyroidism and thyroid cancer, and yttrium citrate (90Y) for radiosynoviorthesis.**

3.21. Nephrology

Includes dialysis techniques only for the treatment of acute processes. **Chronic treatments of dialysis and haemodialysis are excluded.**

3.22. Pneumology

Includes endobronchial ultrasound in the following indications:
- Negative TBNA (endobronchial ultrasound-guided transbronchial needle aspiration)
- cancer staging of a radiologically normal mediastinum in suspected or confirmed lung cancer
- re-staging following induction chemotherapy
- diagnosis of mediastinal masses, peribronchial, paratracheal or intrapulmonary hilar.

Requires prior authorisation from SANITAS after assessing the medical report.

3.23. Neurosurgery

Includes **only** surgery with surgical navigation assistance for intracranial processes and spinal surgery involving four or more affected levels, and intraoperative electro-physiological monitoring.

Endoscopic spinal surgery is excluded.

3.24. Clinical Neurophysiology

3.25. Neurology

3.26. Obstetrics and Gynaecology

Includes laparoscopic gynaecological surgery.

It includes for diagnosing fertility **the following tests only: analytical basal hormone determinations (except the anti-müllerian hormone), ultrasound scan, hysterosalpingography and hysteroscopy, only up until diagnosis, that is, once treatment starts no other related services will be covered.**

It also includes family planning: tubal ligation, IUD implantation **(the IUD is paid by the Insured)**, regardless of the therapeutic purpose, and follow up of treatment with anovulation medicines.

The following genetic tests are included:
- Karyotype
- Factor V Leiden and mutation 20210 of the prothrombin gene, with these two determinations requiring prior authorisation from SANITAS following assessment of the medical report, being covered when there is a personal history of recurrent miscarriage and/or thromboembolic processes.

Any other genetic test other than those mentioned shall be excluded.

Includes breast tomosynthesis and use of genome sequencing platforms for breast cancer prognosis (ONCOTYPE, MAMMAPRINT, PROSIGNA) prescribed by a specialist on the medical chart and whenever necessary for the treatment in accordance with the recommendations set out for each genomic platform mentioned above. Requires prior authorisation from SANITAS after assessing the medical report.

Includes the study of circulating foetal DNA in maternal plasma (non-invasive pre-natal screening) for foetal trisomy screening (13, 18, 21 and sex chromosomes) when the risk ratio from combined screening in the first quarter is between 1:50 and 1:250 and the pregnant woman is in her 10th to 18th week of pregnancy. Requires prior authorisation from SANITAS after assessing the medical report.

Includes preeclampsia screening in the first trimester only.

Includes pelvic floor rehabilitation **for women with moderate-severe urinary incontinence due to pregnancy and delivery, with a limit of 1 year after delivery for any insured whose delivery is covered by her policy, even if the insured decides to not to use this cover for delivery. A maximum of 10 sessions per delivery** are covered. **It includes 5 sessions of pelvic floor rehabilitation after specific incontinence surgery performed at SANITAS.** Prior authorisation from SANITAS is required after assessment of the medical report.

The Insured can also access the pelvic floor recovery plan via the phone programme (917 522 904), provided by our

specialised phone platform Sanitas Responde, which comprises a multidisciplinary team, to recover muscle tone and prevent and treat secondary dysfunctions or conditions.

3.26.1. Breast Surgery

Breast surgery is covered in the following situations:

- Benign tumours. **Excludes breast reconstruction.**
- Malignant tumours: includes surgery on the affected breast. Includes posterior breast reconstruction and remodelling of the contralateral healthy breast, the latter with **a maximum limit of one year** after cancer surgery, if considered a therapeutic option via medical report.
- Individuals not affected by breast cancer in which prophylactic breast surgery is considered a therapeutic option following the BRCA1 and BRCA2 result. Includes subsequent breast reconstruction.

Requires prior authorisation from SANITAS is required after assessment of the medical report.

The only reconstruction methods included in the cover are: **post-mastectomy breast reconstruction, with expanders and prosthesis, reconstruction with dorsi myocutaneous flap, DIEP flap and TRAM flap.**

The only techniques included in remodelling of the contralateral healthy breast are: breast reduction and mastopexy.

3.26.2. Neonatology Care

It comprises the medical check, vaccine administration and performance of all those tests that systematically are performed to newborns during his/her first 48 hours of life, according to the care delivery protocol applicable in each autonomous region, **excluding any medical provision that is a consequence of a pathology or complication appearing at the moment of birth.**

3.26.3. Newborn care

Covers the costs of a newborn's healthcare, **provided that the child has been registered with SANITAS and has this cover.**

This policy does not cover the expenses arising from gestational surrogacy, for neither the mother nor the newborn.

3.27. Ophthalmology

Includes laser photocoagulation **exclusively for ischemic retinopathies, macular oedema, glaucoma and peripheral lesions of the retina (holes or tears); corneal cross-linking for keratoconus treatment; and surgery for cornea transplant with the cornea to transplant** being paid for by SANITAS.

Orthoptic, pleoptic and refractive surgery (for myopia, hyperopia and astigmatism) is excluded.

3.28. Medical Oncology

The treatment prescription must always be performed by the Medical Oncology specialist in charge of the patient's care. SANITAS must pay for treatment if conducted at a healthcare site, whether on the basis of an oncology day unit or on an inpatient basis, if necessary.

It includes specifically cytotoxic medicines **that are authorised for sale on the Spanish market and provided that they are used for the treatments expressly specified in accordance with the product datasheet and whose administration is via parenteral in as many cycles as necessary, or via bladder instillation.**

Includes intraperitoneal chemotherapy **in cases of peritoneal carcinomatosis due to tumours of the ovary or of digestive origin; and intrathecal chemotherapy in cases of high-grade lymphomas or meningeal carcinomatosis.**

It also includes medication without anti-tumour effect, **administered along with cytostatic medications during the chemotherapy session in order to prevent adverse or side effects.**

It includes a study to rule out dihydropyrimidine dehydrogenase deficiency in patients who are candidates for parenteral dihydropyrimidine treatments.

Experimental treatments, treatments for compassionate use, hormonal therapy, immunostimulants, immunosuppressants, gene therapy and treatments carried out for indications not included in the product datasheet of the medicine are expressly excluded.

3.29. Ear, Nose and Throat

Includes CO2 laser surgery and radiofrequency surgery.

The cost of cochlear implants and all pre- and post-surgery consultations and diagnostic tests for adjusting the device are excluded. Any type of rhinoplasty operation is also excluded, except surgery secondary to trauma or non-cosmetic pre-surgery, which always requires prior assessment of the medical reports by a doctor from this speciality.

3.30. Psychiatry

Inpatient healthcare is covered for the treatment of acute episodes or flare-ups of chronic conditions, and day-care healthcare is covered for the treatment of eating disorders, psychotic disorders, borderline personality disorder and severe depression.

Cover is provided for **up to 60 days per Insured per year.** For the purposes of calculating this limit, days spent receiving healthcare as an in-patient and days spent receiving treatment as a day-patient shall be counted together.

3.31. Radiodiagnosis/Imaging Diagnosis

This covers the standard diagnostic techniques. SANITAS will cover the cost of contrast agents **only in computed tomography (CT), magnetic resonance imaging (MRI), interventional radiology and renal ultrasound for children under the age of 18.**

It also includes:

A) CT colonography carried out for the following indications:

- Screening of colon cancer and colon polyposis in patients without a known clinical history of colon cancer, polyposis orinflammatory intestinal illness, as long as they present family background of these pathologies or are candidates to screening for age reasons (from the age of 50).

- Screening of colon cancer and colonpolyposis in patients in which the conventional colonoscopy is contraindicated due to their clinical situation or entails a higher risk.

- As a complement to conventional colonoscopy when this has been unable to reach the full length of the colon.

Prior authorisation from SANITAS is required after assessment of the medical report.

B) CAT coronography.

Assessment of the calcium score is excluded.

3.32. Radiotherapy

The radiotherapy cover includes oncological processes only **and only the following methods: intensity modulated radiotherapy (IMRT), 3D external conformal radiotherapy, stereotactic brain and body radiotherapy (IGRT/SBRT), interoperative radiotherapy and brachytherapy.**

It also includes stereotaxic radiosurgery for treating oncological processes, brain tumours, cerebral arteriovenous malformations and as

the final stage of therapy in trigeminal neuralgia.

Requires prior written authorisation from SANITAS after evaluation and with a doctor's report provided by the insured.

Proton beam therapy and neutron capture therapy are excluded. Microsphere radioembolization is also excluded.

3.33. Rehabilitation

It comprises the consultations which have the purpose of diagnosis, evaluation and prescription of the physiotherapy treatments included in the cover of Physiotherapy.

3.34. Rheumatology

3.35. Urology

Includes Multi-parametric Magnetic Resonance of the prostate.

It includes Fusion-guided prostate biopsy **but only when the result of the multi-parametric MRI is PIRADS 3, PIRADS 4 or PIRADS 5.**

Prior authorisation from SANITAS is required after assessment of the medical report.

Includes laser photo-vaporization and enucleation of the prostate.

Includes laser endourethral and vesical lithotripsy.

Includes percutaneous laser **for kidney stones larger than 2 cm.** Prior authorisation from SANITAS is required after assessment of the medical report.

It includes 5 sessions of pelvic floor rehabilitation after specific incontinence surgery performed at SANITAS. Prior authorisation from SANITAS is required after assessment of the medical report.

It includes for diagnosing fertility **the following tests only: basal hormone determinations, basic semen analysis and bacteriological cultures of semen, only up until diagnosis, that is, once treatment starts no other related services will be covered.**

Cover is provided for robotic surgery using a multi-port robot for patients with prostate cancer or kidney cancer, carried out at a designated healthcare centre approved by SANITAS for this service, subject to the Insured first paying the amount specified in their Individual Policy Conditions.

Prostate cryotherapy, irreversible electroporation and other focal therapies are excluded.

4. Other care services

If these services are provided by healthcare professionals, they must be duly qualified and registered.

4.1. Ambulance

Transfers in ambulance from the place where the insured is located to the hospital where he/she will be admitted or to which he/she presents for an emergency and under SANITAS coverage shall be covered. Also covered are return transfers of the insured from the hospital to their home and those made between hospital centres on the SANITAS list of healthcare providers if the care resources at the hospital where the Insured is found are not those that their medical care requires. Transfers for chemotherapy and radiotherapy treatments at a Day Hospital are also covered. In all these cases the service will be provided by land within the national territory using the means agreed on by SANITAS and so long as the physical state of the Insured impedes his/her transfer by other ordinary means (taxi, private car, etc.) and is authorised via the Sanitas 24-hour hotline.

This benefit does not include transfers required for physiotherapy treatments, diagnostic tests or to attend doctor's visits nor generally any other type not covered in the paragraph above. Service provisions

by providers not agreed with or by the Spanish regional or national public health service are therefore excluded.

4.2. Special Care in the Home of the Insured

It will be provided by healthcare teams, when the patient's condition requires special care but not admission to hospital or specialised equipment and always with a prescription from a doctor and after evaluation with a doctor's report provided by the Insured. The medication, material and equipment will be covered by the Insured. **Does not include care for social problems.**

4.3. Obstetric-Gynaecological Nursing (Midwifery)

Care provided by a midwife will be available only for hospital-based child delivery.

4.4. Physiotherapy

It is provided solely on an outpatient basis and **exclusively for conditions originating in the musculoskeletal system**, considering as such exclusively those structures of the human body that perform the locomotive or movement function and therefore not those such as the temporomandibular or the abdominal wall/muscles, which do not perform this function and always provided it is not a chronic or degenerative process, through to the greatest possible functional recovery of the patient, determined by the rehabilitation doctor.

It includes shockwave therapy for **chronic osteotendinous injuries of the musculoskeletal system with a maximum of 5 sessions per joint and year.**

Requires prior authorisation from SANITAS after assessment of the medical report.

Under admission to hospital, it will be provided **only and exclusively for the recovery of the musculoskeletal system secondary to an orthopaedic operation, for immediate recovery after chest surgery, acute myocardial infarction or surgery with extracorporeal circulation.**

It also includes lymphatic drainage after surgery for an oncology process. Requires prior authorisation from SANITAS after assessing the medical report.

Includes pelvic floor rehabilitation **exclusively under the criteria set out in the Obstetrics and Gynaecology and Urology section.**

Physiotherapy and rehabilitation treatments are excluded once functional recovery has been achieved, or the maximum possible level of such recovery has been reached, or when the treatment becomes maintenance therapy.

Neurologic rehabilitation, early care, occupational therapy, heart rehabilitation as an outpatient, respiratory rehabilitation except for post-operative chest surgery for inpatients, **temporomandibular joint rehabilitation, vestibular rehabilitation, water-based rehabilitation, ophthalmological rehabilitation and those performed using robotic equipment are excluded.**

Any type of home physiotherapy treatment is excluded.

4.5. Speech and Phoniatric Therapy

Requires prior authorisation from SANITAS after assessment of the medical report and must be prescribed by an ear, nose and throat specialist (in the case of organic processes of the larynx and vocal cords) or by a neurologist (in the case of acute cerebrovascular accident).

It covers **up to 80 sessions per year and Insured.**

Only the following are covered:

Organic processes associated to the larynx and vocal cords:

1. Inflammation: oedemas
2. Tumours:
   a) Benign: modules, polyps.
   b) Malignant: cancer of the larynx (partial or total)
3. Changes to the vocal cords:
   a) Paresis (reduction of cord movement because either the muscle or nerve are injured)
   b) Paralysis (reduction of cord movement because either the muscle or nerve are injured)
4. Congenital malformations

The insured cover includes **only speech therapy during the first six months following an acute cerebrovascular accident.**

Therapy for language development programmes is also covered for Insureds under the age of 14, as prescribed by a paediatrician, ENT specialist or neurologist, **up to a maximum of 20 sessions per year per Insured.**

4.6. Nutrition

Access to this speciality **must be prescribed by specialists in endocrinology, oncology, internal medicine, geriatrics, paediatrics, digestion or gynaecology authorised by SANITAS**. It is covered **when a medical condition exists (cancer patients, diabetes, obesity with BMI >30 or a severe eating disorder).**

4.7. Podiatry (Chiropody exclusively)

It covers **only chiropody, which is understood as treatment for removing calluses and alterations to the toe nails performed by a chiropodist.**

Up to a maximum of 12 sessions are covered per year per Insured.

4.8. Prostheses

Only covers internal prostheses and internal implantable materials expressly listed below.

The Insured must provide the reports and/or quotations if SANITAS so requires.

1. Ophthalmology: It includes **only simple monofocal intraocular lenses, excluding toric, monofocal plus and extended depth-of-focus lenses and any other model of advanced monofocal lens** used in cataract surgery. Also includes corneal tissue **exclusively from national tissue bank for cornea transplant.**

2. Traumatology and Orthopaedic Surgery: Hip, knee and other joint prostheses; columnar fixation material; intervertebral disc; intersomatic or interspinal intervertebral material; vertebroplasty/kyphoplasty material.

3. Tissue banks in traumatology and orthopaedic surgery. Only the following materials sourced from authorised tissue banks within the European Union are covered: bone, tissue and tendon allografts, and synthetic bone substitutes: phosphocalcic ceramics, phosphocalcic cements, calcium sulphate, acrylic cement and demineralised bone matrix exclusively for spinal surgery and tumour-related procedures.

4. Cardiovascular Area: the following vascular prostheses: stents; peripheral or coronary bypasses, whether medicated or non-medicated; aortic endoprostheses; heart valves**, excluding valves or valve repair devices implanted percutaneously or transapically;** aortic valved conduits, provided they are associated with open aortic valve surgery; pacemakers, **excluding any type of defibrillator or artificial heart; coils and/or embolisation material.**

5. Chemotherapy or Pain Treatment: reservoirs.

6. Other surgical material: abdominal wall meshes, except biological meshes; thoracic wall meshes in oncology surgery, except biological meshes; biliary stent; oesophageal endoprosthesis, duodenal and colonic; urethral endoprosthesis; urological suspension systems; cerebrospinal fluid (hydrocephalus) derivation systems; testicular prosthesis; breast implants and expanders, in

both the breast affected by previous tumour surgery and in cases in which prophylactic mastectomy is considered a therapeutic option after the results of BRCA1 and BRCA2; and biological breast-covering meshes for immediate breast reconstruction following mastectomy.

7. Bone fixation materials in cranium and/or maxillofacial surgery. Includes bone substitutes, only for bone void filler after tumour surgery.

Requires prior authorisation from SANITAS after assessment of the medical report.

The prostheses (and implantable materials) covered by the policy will be **the prostheses approved by SANITAS only** in accordance with criteria of guaranty, clinical safety and technical quality, and always supplied by the companies appointed by SANITAS at any given time. Placing or implanting prostheses (or implantable materials) not approved by SANITAS under the terms above, which are not authorised or covered by the policy, exonerates SANITAS from any liability arising from the implantation and functioning of the prosthesis (or implantable material).

If the insured requests authorisation for the implantation of prostheses (or implantable materials) not approved by SANITAS, SANITAS will inform the insured of an equivalent alternative that is duly approved by SANITAS and covered by the policy.

4.9. Mother and Baby Programme

Includes theoretical and practice classes for child delivery preparation, child health examinations, as well as telephonic assessment by nursing professionals during the first six months of life of the child.

4.10. Psychology

This comprises individual psychological care prescribed by Psychiatrists, Family Health Advisors, Paediatricians or Medical Oncologists the purpose of which is to treat disorders which could be treated via psychological intervention.

Psychometric tests will be covered by the insured.

It includes a maximum of 15 sessions per Insured and insurance annuity.

Psychoanalysis, psychoanalytical therapy, hypnosis, narcolepsy treatment, animal-assisted therapy and psychosocial and neuropsychiatry rehabilitation services are excluded.

4.11. Home-based respiratory therapy

Exclusively comprises the following treatments:

a) Oxygen therapy: liquid, concentrator-based and gaseous.

Liquid oxygen therapy must be prescribed for administration for at least 15 hours a day. SANITAS shall only pay for one type of oxygen therapy treatment.

Portable oxygen concentrator is excluded.

b) Generation of positive airway pressure with CPAP or autoCPAP **to treat obstructive sleep apnoea.**

c) Partial BiPAP ventilation therapy and aerosol therapy.

5. Hospital admission

Hospitalisation in a clinic or hospital.

In the event of an overnight stay, the patient will be accommodated in a standard single room with a bed for a companion, unless this is clearly not possible, except in the case of psychiatric admissions, in the ICU or in an incubator; SANITAS shall bear the costs arising from diagnostic and therapeutic procedures, surgical treatments (including operating theatre costs and medicines, **provided they are used in accordance with the instructions set out in the product's technical data sheet, except for medicines that are not authorised for sale in Spain) and the patient's hospital stay, including board.**

Excludes care for social reasons.

6. Preventive medicine

Includes programmes applied to healthy populations covering different activities such as medical consultations, physical exams and basic diagnostic tests prescribed by the specialist concerned for early disease diagnosis:

6.1. Paediatrics: Provides for consultation with a specialist, newborn health checks (including metabolic screening and early hearing impairment detection via OAEs or AEPs where necessary) and regular health checks to monitor child development **(from birth to 11 years of age).**

6.2.Gastrointestinal Tract: Includes consultation with a specialist and a physical examination as well as basic diagnostic tests (e.g., test for blood hidden in faeces or colonoscopy).

6.3. Cardiology: Includes a consultation with a specialist and a physical examination, as well as basic diagnostic tests (for example: ECG, basic blood and urine tests, stress test), to assess the risk of coronary heart disease.

6.4. Pneumology: Includes consultation with a specialist and a physical examination as well as basic diagnostic tests (e.g., chest x-ray).

6.5. Gynaecology: Includes an annual gynaecological check-up for the prevention of cervical, endometrial and breast cancer. Includes a consultation with a specialist and a physical examination, as well as basic diagnostic tests (e.g. ultrasound scan, mammogram, smear test or gynaecological ultrasound scan).

6.6. Urology: Includes a consultation with a specialist as well as basic diagnostic tests (e.g. prostate-specific antigen (PSA) test, urine test, ultrasound scan and/or prostate biopsy).”

The recommended frequency for these exams varies in line with the characteristics of each case, which is why it is up to the specialist to establish recommendations in accordance with the risk.

ADDITIONAL COVERAGES OF YOUR INSURANCE

Overseas emergency healthcare cover

What is it? Use of services and time limit

This is a policy add-on which will cover emergencies abroad due to illness or accident, **provided that the care required occurs within 90 consecutive days from the start of the trip.**

For everything that does not expressly go against the provisions of this add-on, the provisions of the policy terms and conditions, including its limitation clauses and exclusions, will apply to the urgent medical care abroad guarantee.

To cover this care, **it is essential for the Insured** to be up to date with payment and, **before any medical service is provided (except in a life-threatening emergency), SANITAS must be contacted and prior authorisation sought** via the phone number on the back of the card.In the event of a life-threatening emergency, the Insured shall visit the nearest clinic or hospital and must report this to SANITAS within a maximum of 7 days starting from the date of admission, supplying Sanitas with a copy of the emergency report.

For Sanitas to accept the care provision, all the required documents must be supplied (travel receipts, medical report justifying the emergency and all other reports needed, bills and payment receipts).

What is not included?

- **medical expenses abroad under €3.**
- **costs arising from the diagnosis or treatment of a physiological condition or an illness that was known about before the trip began, unless it is a clear or unforeseeable complication; treatments arranged in Spain;**
- **mental and chronic illnesses causing alterations in the Insured's health.**

What services are included?

1. Medical Costs

During the validity of the policy SANITAS guarantees the Insured emergency healthcare assistance abroad for:

- medical expenses (doctors, surgeons and hospitals/clinics)
- medicine prescribed by a doctor
- emergency dentist expenses **up to €300 per Insured, excluding expenses related to endodontic treatments, cosmetic reconstructions of previous treatments, teeth cleaning, caps, and implants**
- Hospital fees
- Fees for an ambulance ordered by a doctor for a local journey

All of these expenses must be incurred outside of Spain and provided through the centres appointed by SANITAS.

Limits

€12.000 per person and year.

2. Transfer of sick and injured individuals to a care centre

What is included?

SANITAS ill pay for this transfer under medical observation through to the care centre where the patient can be treated.

SANITAS medical service shall decide on and choose the means of transport and medical centre/hospital the Insured must attend, in accordance with the medical order applicable to the case.

3. Extension of a companion's hotel stay for hospitalisation of the Insured

When the Insured has to be admitted to hospital on a doctor's orders and in accordance with the medical service, SANITAS shall reimburse the costs arising from the necessary extended hotel stay for their companion - if also Insured by Sanitas - **up to a maximum of €60 per day and up to a maximum of 10 days**.

4. Family member's travel and stay to accompany the Insured in hospital

If during the trip the Insured should be hospitalised for more than five days and no direct family member is with him or her, SANITAS shall make a regular-flight, return plane ticket (economy class) or train ticket (first class) available to a companion with regular place of residence in Spain. SANITAS shall pay **up to €60 per day for up to 5 days** in respect of hotel accommodation to cover this person's costs.

5. Transport in the event of death

In the event of the death of the Insured, SANITAS shall organise and meet the expenses for the transfer of the coffin to the place of burial in the country of his or her usual place of residence, as well as the minimum compulsory coffin expenses, embalming costs and administrative formalities. Where applicable and following a request from the Beneficiaries, SANITAS shall meet the costs of incineration in the place of death and transportation of the ashes to the place of burial in the country of his or her usual place of residence. **SANITAS will not meet funeral or burial expenses**.

6. Early return of Insured accompanying relatives

If the Insured is transferred by reason of death under the cover "Transfer in Event of Death" and this circumstance prevents accompanying Insured family members from returning to their homes by the means planned originally, SANITAS will bear the cost of their travel to their permanent place of residence in Spain. **Maximum two adults and accompanied children under the age of 14**.

7. Accompanying children

If, during the term of the contract, Insured persons travelling with disabled persons or children under 14 years of age cannot look after them due to a sudden illness or accident covered by the Policy, SANITAS shall arrange and cover the costs of outbound and inbound travel of a person residing in Spain named by the Insured or his/her family to accompany children on their return to their habitual residence in Spain as quickly as possible.

8. Search and retrieval of luggage and personal belongings

If the Insured has his/her luggage delayed or lost, SANITAS shall help in its search and retrieval, advising on how to file the corresponding formal complaint. If the luggage is retrieved, SANITAS shall send it to the Insured's habitual residence in Spain, providing the presence of the owner is not required for its recovery.

9. Dispatch of documents and personal belongings overseas

SANITAS shall organise and take care of essential items for the journey which have been left at home (contact lenses, prosthetics, spectacles, credit cards, driving licence, ID card and passport). This service extends to posting the same items home if they have been left behind on the journey or recovered after theft.

SANITAS shall only organise the dispatch and postage for parcels weighing no more than 10 kilogrammes.

10. Advance of funds

SANITAS shall advance funds of **up to €1,500** to the Insured, when required.SANITAS shall require some kind of special guarantee ensuring the Insured repays the advance. In any event, the amounts advanced shall be returned to SANITAS within a maximum period of 30 days.

11. Legal advice

If the Insured is incarcerated or prosecuted as a result of a traffic accident, SANITAS shall pay **up to €1,500** for lawyer and attorney fees incurred for the legal assistance provided. If this service is covered by the Motor Insurance Policy, it shall be

considered an advance and SANITAS shall reserve the right to request a special guarantee from the Insured to ensure payment of the advance.

12. Advance of the amount for bail demanded abroad

If the Insured is prosecuted or incarcerated in the country in which it arises, SANITAS shall issue an advance equal to the amount of bail demanded by the local authorities **up to a maximum of €10,000**. SANITAS reserves the right to request a special guarantee from the Insured to ensure repayment of the advance. In any event, the amounts advanced shall be returned to SANITAS within a maximum period of two months.

13. Dispatch of medication

What is included?

If the Insured needs a medicine prescribed by a doctor and cannot acquire it in the place where he or she is holidaying, SANITAS shall locate it and send it to him or her by the fastest means and in compliance with local laws.

What is not included?

Cases where the medicine is no longer manufactured and is unavailable in the regular distribution channels in Spain are excluded. The Insured shall repay SANITAS the price of the medicine upon presentation of the bill.

14. Transmission of urgent messages

SANITAS shall, through a 24-hour service, accept and transmit urgent messages from the Insured, so long as they have no other means of making them reach their destination and so long as they are a consequence of a guarantee covered by the contract.

Repatriation cover

Transfer to the country of origin of the insured and an escort in the event of the Insured's death

If the Insured dies in Spain, SANITAS will, via the provider it appoints, organise and take charge of the transfer of the coffin or ashes, in the case of cremation, from the place of death to the international airport closest to the place of interment in the deceased's country of origin expressly designated in the Particular Conditions, when the Insured's beneficiaries report on the undertaker's that will take charge of the mortal remains at the airport.

SANITAS will furthermore assume the costs of the transfer from the international airport to the place of interment in the deceased's country of origin, with a $1,000 limit and always so long as the burial is more than 30 km from the international airport.

In the event of the Insured's death, the provider appointed by SANITAS will also take charge of the transfer from the place of the Insured's death in Spain to the international airport closest to the place of interment in the deceased's country of origin of a direct family member of the deceased whose habitual place of residence is in Spain (hereafter the escort).

SANITAS will also assume the cost of transferring the escort from the international airport to the place of interment in the deceased's country of origin with a $1,000 limit so long as the burial is more than 30 km from the international airport.

The policy also covers the escort's return trip from the place of interment to his or her place of habitual residence in Spain (first-class train, economy-class scheduled airline or any other suitable form of transport). This guarantee will be provided so long as the return trip takes place within a maximum of fifteen days from the date of death.

TERRITORIAL SPHERE

The services apply in Spain

USE OF THE SERVICES

To use the services under this supplementary cover, the Insured must be up to date with his/her obligations, especially with regards premium payment, and the information must be included in a file which will be supplied to the provider at the start of the cover.

The SANITAS card clearly indicates a hotline number to make reverse-charge calls if needed, pursuant to the conditions of the present supplementary cover, and if any additional information is needed.

RISKS EXCLUDED

- **Interment and ceremonial expenses are excluded from this cover.**

- **Transfers not previously communicated to the provider and for which the corresponding prior authorisation has not been obtained are generally excluded. The service provision will not proceed if this communication is not produced under the indicated terms. The transportation of organs, tissue, cells and by-products, embryos and fetuses is expressly excluded.**

- **Transfer is excluded if the Insured's death occurs in a state of war, insurrection or similar conflict of any type or nature, even when not officially declared; and those cases where the transfer is to a country under the same conditions.**

Second medical opinion cover

Includes a second opinion on medical diagnosis or treatment in the event of serious chronic diseases requiring scheduled care of which the course may require new diagnostic tests or therapeutic measures and whereof the life prognosis is seriously compromised. This second opinion shall be issued by a medical report by leading specialists, healthcare centres, physicians or academics in any country in the world, designated by SANITAS.

To use this service, the Insured can call 93 25 40 538 for an explanation of the procedure to follow and the documentation to supply, which shall include written medical information, X-rays or other image diagnoses, excluding dispatch of any biological or synthetic materials. The dossier shall be sent, with due confidentiality, to the specialist or centre concerned, according to the disease being treated.

When the process ends, the Insured will be sent a second medical opinion report which will include:

- Summary of their clinical history.

- Opinion of the experts consulted.

- Curriculum vitae of these experts.

During the whole of this process the Insured shall be accompanied by a consultant physician responsible for managing the case and advising the patient at all times.

Acute diseases or those requiring an urgent answer are excluded from this service.

Consultations, tests or treatments not performed in accordance with the rules or covers of the healthcare policy will not be covered.

Sanitas Dental 21

The benefits Insured by this policy are specified in the document Insured Dental Benefits, attached to the Particular Terms and Conditions and forming an integral and inseparable part of them and of these General Terms and Conditions. They are classified as follows:

1. Without excess: The Insured does not have to pay any amount to the dentist unless the policy provides for copayments, which shall be specified in the Particular Terms and Conditions.

2. With excess: The Insured must pay the excess amount determined in the Insured Dental Benefits document, attached to the Particular Terms and Conditions of this policy, for the service performed.

If there is any change to the Insured benefits or the amount of excess, the Insurer shall notify the Insured of the new amounts to pay with two months' notice of the date of effect. Payment of the premium implies acceptance of such changes.

Blua

Healthcare programmes

1. PURPOSE OF THE COVER

To provide the Insured with information, guidelines and professional and personalised care via remote communication techniques (phone, chat and video consultation).

2. SCOPE OF THE COVER:

- This cover corresponds exclusively to the Insured and is personal and non-transferrable.
- The video consultation service will be provided in the cases specified by SANITAS and always with an appointment.
- The services included in this cover are provided by Sanitas Emisión S.L., a Sanitas Group company.
- If the Insured is under 18 years old, the conversation will be held with the parent or guardian of the minor.

3. PROCEDURE

- The Insured can request this service via Mi Sanitas at www.sanitas.es or via the mobile app to establish contact via chat, an appointment for a video consultation or on 91 752 29 04 within the specified service times.
- It offers recommendations for each digital programme, in addition to an advisor to answer any questions and personalised monitoring of each Insured.
- The targets and actions plans of each Insured will be individual and agreed with the Insured.
- The frequency and form of contact to monitor the programme (via phone, chat and video consultation) will be scheduled with the Insured.
- The Insured can also request an appointment with their healthcare advisor whenever they need to hold a consultation via phone, chat or video consultation within the specified service times.
- The services included in this cover are provided if this cover and the policy of which it is part are valid and the premium is paid to date.

4. CUSTOMER SERVICE

The service times are Monday to Friday from 8:00 a.m. to 10:00 p.m., except bank holidays in Spain and local holidays in Madrid.

5. DURATION

This supplementary cover will come into effect on the date expressly specified in the Individual Terms and Conditions of the policy and it will terminate on the expiry date; it is extended for successive 12-month periods under the terms and conditions set out for the main benefit in the General Terms and Conditions of this policy.

6. RISKS EXCLUDED

Notwithstanding the exclusions set out in the General Terms and Conditions of the

policy, the following exclusions will be specifically applicable to this cover:

- **Consultations or care requiring the physical presence of the doctor.**
- **Diagnosis of illnesses or prescription of diagnostic tests or medical treatment.**
- **Treatment for any illness, congenial or acquired, which to the judgement of the specialist impedes carrying out the plan.**
- **The cover excluded in the general and Individual Terms and Conditions of the policy.**

Below are the details of the programmes available:

Personal Trainer and Physiotherapy

1. PURPOSE OF THE COVER

To provide the insured with information, guidelines and professional and personalised care on physical exercise in order to improve the insured's physical fitness.

Service offered by specialist physiotherapists and personal trainers specially designated by SANITAS for each case, who work with medical protocols and specific care programmes according to the insured's profile and health.

This programme allows more visual monitoring of the targets and the progress achieved on the Mi Sanitas app.

Nutrition

1. PURPOSE OF THE COVER

To provide the insured with information, guidelines and professional and personalised care on nutrition in order to achieve health eating habits.

Service offered by qualified specialists in nutrition and diet who work with medical protocols and specific care programmes according to the insured's profile and health.

This programme allows more visual monitoring of the targets and the progress achieved on the Mi Sanitas app.

2. SPECIFIC RISKS EXCLUDED

Notwithstanding the exclusions outlined above, the following exclusions will be specifically applicable to this cover:

- **Care for the following disorders: underweight (Body Mass Index below 17), eating disorders (anorexia, bulimia, etc.) or any serous disorder/ comorbidity the healthcare professional considers should be monitored through in-person consultations.**
- **Monitoring of morbid obesity (Body Mass Index over 40 or over 35 with associated comorbidities (diabetes, high blood pressure, heart disease, OSA, etc.) are excluded, as these should be monitored according to the protocol defined by the company, after confirming that the insured meets the requirements set out by SANITAS.**

Psychology

1. PURPOSE OF THE COVER

To provide the insured with information, guidelines and professional and personalised care on psychology in order to help the insured achieve psychological wellbeing.

Service offered by psychologists who work with medical protocols and specific care programmes according to the customer's profile and health.

2. SPECIFIC RISKS EXCLUDED

Notwithstanding the exclusions outlined above, the following exclusions will be specifically applicable to this cover:

- **Attention for the following disorders: psychotic, severe depression, eating disorders (anorexia, bulimia, etc.) personality disorders (schizoid, avoidant, dependent, histrionic, borderline, etc.); dementia and cognitive impairment; morbid obesity (this monitoring should be carried out according to the protocol defined by the company, after confirming that the insured meets the requirements set out by SANITAS**).

Pregnancy

1. PURPOSE OF THE COVER

To provide the insured with information, guidelines and professional and personalised attention on pregnancy, postpartum and the baby's first few months of life in order to help the insured to enjoy a healthy pregnancy and postpartum and offer advice on taking care of the baby.

Service provided by midwives and nurses specialising in maternity specially designated by SANITAS for each case, who work with medical protocols and specific care plans according to the insured's profile and health.

This programme allows more visual monitoring of the targets and the progress achieved on the Mi Sanitas app.

Healthy Child

1. PURPOSE OF THE COVER

To provide the insured with information, guidelines and professional and personalised care on the health and development of children up to 14 years old in order to complete the information provided by the paediatrician during in-person consultations and address any queries.

Service provided by paediatric nurses specially designated by SANITAS for each case, who work with medical protocols and specific care plans according to the insured's profile and health.

This programme allows more visual monitoring of the targets and the progress achieved on the Mi Sanitas app.

Pelvic floor care

1. PURPOSE OF THE COVER

To provide the insured with information, guidelines and professional and personalised support on care and rehabilitation of the pelvic floor in order help the insured prevent or improve problems related to the pelvic floor.

Service provided by physiotherapists specially designated by SANITAS for each case, who work with medical protocols and specific care plans according to the insured's profile and health.

Quit smoking

1. PURPOSE OF THE COVER

To provide the insured with information, guidelines and professional and personalised support on giving up smoking in order to support the insured in their decision to give up or reduce their smoking habit.

Service provided by nurses and psychologists specialising in giving up smoking specially designated by SANITAS for each case, who work with medical protocols and specific care plans according to the insured's profile and health.

Other digital benefits

SANITAS shall provide the insured, at not extra cost, with digital benefits associated to caring for their health in addition to or to replace those included in this policy. The scope of the insured cover of these benefits and their limits and exclusions will be available in the Mi Sanitas private area of www.sanitas.es or on the app. Insureds must accept these terms and conditions before using them.

Emergencies via video consultation

Insureds who wish to use the emergencies via video consultation service must:

- Register in the MI SANITAS customer-reserved area, which may be accessed via the app or website www.sanitas.es.

- The Insured cannot choose a doctor via the video consultation service but a doctor will be available at the time the consultation is requested.

- The video consultation does not replace the in-person consultation under any circumstances - it is simply an auxiliary tool in the patient diagnosis and treatment process. Therefore, the doctor may require the Insured to attend an in-person consultation when considered necessary.

Clause III: Exclusions from cover

Healthcare arising from the risks indicated below is excluded from the cover of this policy, regardless of any other exclusion duly highlighted in the terms and conditions of this policy:

A. All types of disease, injury, pain, constitutional or congenital defect, deformity, medical condition or situation existing prior to the registration date of each Insured party in the policy and/or those as a result of accidents or diseases and their consequences arising prior to the date of inclusion of each Insured party in the policy.

The Policyholder, on his/her own behalf or that of the Insured parties, must include any type of injury, congenital condition, disease, diagnostic test, treatment and symptoms that may be considered the onset of a condition in the health questionnaire included in the insurance application. Where not indicated, any Insured cover directly or indirectly relating to the declaration not made shall be excluded. SANITAS shall assess the information provided by the Policyholder as a basis to accept or reject the arrangement of the insurance or to accept it excluding certain Insured cover.

B. Healthcare relating to diseases, accidents, injuries, deformities or defects:

- **Arising as a consequence of international and civil wars, acts of terrorism in any form (chemical, biological, nuclear, etc.), revolutions and military manoeuvres, even in times of peace time, and officially declared epidemics.**
- **Directly or indirectly related to nuclear radiation or radioactive contamination and those resulting from officially declared catastrophes.**
- **Arising from working or professional accidents.**
- **Any services associated to road accidents, whether they occur in Spain or abroad are excluded from the Insured cover,** except any urgent attention required or unless the road accident add-on has been taken out.
- **Those occurring whilst the Insured is doing extreme sports as an amateur, for example aerial activities, high speed motor sports, scuba diving, off-piste skiing or ski jumping, bobsleigh, rock climbing, boxing, any type of wrestling, bull fighting and encierros, martial arts, rugby, quad biking, caving, sailing or rafting activities, bungee jumping, hydrospeeding, canyoning, parachuting, paragliding, hot air ballooning, free flying, gliding, hunting, horse riding and any other activity with a similar risk and those resulting from sports competitions, including training sessions.**

C. The healthcare provided in:

- **Social Security centres or services or integrated in the National Health Service. Cross-border healthcare is also excluded.**
- **Health centres or integrative medicine clinics or any center in general that is not restricted to providing conventional medicine services only, these being those provided by a profession regulated by Law 44/2003, of 21 November, on the management of medical professions and which is a service set out in Royal Decree 1030/2006, of 15 September, which defines the portfolio of common services of the National Health Service and the procedure for updating it. The aforementioned applies regardless of whether these services are provided by registered medical professionals and in the course of treatment are combined with services that would be included in the aforementioned law and that would**

not be included in the insured cover either.

Be considered alternative medicine, naturopathy, homeopathy, acupuncture, mesotherapy, hydrotherapy, deep pressure therapy, ozone therapy, chiropractic, or any other therapy not included in the services set out in Royal Decree 1030/2006, of 15 September, which defines the portfolio of common services of the National Health Service and the procedure for updating it.

D. Hospitalisation for problems of a social nature.

E. Medical and/or hospital care provided to the Insured by a doctor or a member of their professional team who is or has been the spouse or relative by consanguinity or affinity (up to the 4th degree) of the Policyholder or the Insured.

Medical and/or hospital care provided to the Insured by a doctor who has a dependency relationship with the Insured or Policyholder through a professional, work or commercial relationship, or who is associated to any of them through any partnership or stakeholder relationship.

F. Healthcare derived from chronic alcoholism, drug addiction, intoxication due to the abuse of alcohol, psychotropic drugs, narcotics or hallucinogens, attempted suicide and self-harm, diseases or accidents due to intent or gross negligence of the Insured.

G. All means, methods, tests, techniques or diagnostic, surgical or therapeutic procedures (hereinafter the "Techniques") that arise after taking out the policy or each annual extension of the policy. This exclusion will only apply if the policy covers other alternative Techniques to the new technique, even if they are not similar, and which have not become clearly obsolete, fallen into disuse or surpassed by the new Technique in question.

Likewise, any Techniques performed within a clinical trial or that, due to their lack of safety or effectiveness, are not used in normal clinical practice are excluded; these being any techniques that are not approved by the European Medicines Agency and/or the Spanish Agency of Medicines and Medical Devices and by the Health Technology Assessment Agencies of the health services of the Autonomous Communities or the Ministry of Health.

The Techniques that SANITAS informs the Policyholder are included in the policy will be included under the terms and conditions within the limits set out in said communications.

The contents of this section are understood to be without affecting the other exclusions set out in this policy.

H. Any type of service relating to:

- **Diseases or treatments not included in the policy cover or any medical service that is directly associated with a treatment that has not been provided under the insured cover of the policy because it is not included in it.**

- **Diagnosis and treatments, including surgery, aimed at resolving the sterility or infertility in both sexes, except for the tests detailed in the relevant sections on gynaecology and urology, or impotence and erectile dysfunction, including sex reassignment surgery.**

- **Voluntary interruption of pregnancy.**

- **Transplants of organs, tissues, cells or cells components, except autologous transplant of both bone marrow and progenitor cells of peripheral blood due to haematologic lineage tumours and cornea transplant.**

- **Heterologous transplants**.

• Any surgical procedure on unborn babies.

• Any surgical technique using robotic surgery equipment, except for the operations detailed in the relevant section on urology. Any diagnostic or therapeutic technique that uses robotic equipment.

• Genetic studies for ascertaining the predisposition of the Insured or their current or future ascendants or descents of suffering diseases related to genetic alterations. Tumour and liquid biopsy genetic studies are expressly excluded, except for those set out in the genetic studies section and in the obstetrics and gynaecology section.

• Prostheses and implantable material, except those set out in the corresponding section of the General Terms and Conditions. **Exclusions include: any type of external prosthesis; personalised prostheses; any type of orthopaedic material; external fixation devices; biological or synthetic materials; grafts; valved conduits,** except valved conduits associated to aortic valve surgery; **cardiac valves and valve repair devices implanted via percutaneous or transapical replacement; implantable infusion pumps for medicine, spinal cord stimulation electrodes, defibrillators and artificial hearts.**

• Procedures, infiltrations, medicines and treatments and any other aesthetic or cosmetic procedure, including those based on psychological reasons. For breast surgery, only those caused by a malignant tumour disease are covered; the following being expressly excluded: prophylactic operations, except those that meet the criteria set out in the breast surgery section, **and those performed to correct breast hypertrophies and/or gynaecomastia. Any type of abdominoplasty. Likewise, treatment for any type of condition or complication that may arise at a later date and that are directly and/or mainly a result of the Insured having undergone an operation, infiltration or treatment for any of the aforementioned for purely aesthetic or cosmetic purposes are expressly excluded.**

• Treatments with platelet-rich plasma, growth factors and stem cells.

• Hyaluronic acid, whether sold as a medicine or health product.

• Education therapy, language education in processes without an organic disease or special education for patients with a psychiatric condition.

• General medical examinations for preventive purposes, except the cover mentioned in these General Terms and Conditions.

• Alternative medicine, naturopathy, homeopathy, acupuncture, mesotherapy, hydrotherapy, pressotherapy, ozone therapy, chiropractic, etc. All care provided in integrative medicine medical centres or clinics or that combine medical care and non-conventional therapies recognised as pseudo-therapies by the Spanish Ministry of Health and the Spanish Medical Association is excluded.

• Services or techniques that merely consist of leisure, rest, comfort or sporting activities, similarly treatments at spas and health farms.

• Orthosis, orthopaedic products, anatomical products, glasses, contact lenses, hearing devices, and others.

• All treatments with hyperbaric chamber are excluded.

• Any radiofrequency treatment at musculoskeletal level, except vertebrae.

• Endoscopic spine surgery is excluded.

I. All surgical techniques or therapeutic procedures using laser, except:

• Ophthalmic photocoagulation exclusively for ischaemic retinopathies, macular oedema, glaucoma and peripheral retinal lesions (holes or tears).

• Corneal cross-linking for keratoconus treatment.

• Haemorrhoid treatments.

• Clinical (not cosmetic) peripheral vascular surgery.

• Ear, nose and throat CO2 laser.

• In musculoskeletal physiotherapy.

• Laser endourethral and vesical lithotripsy.

• Laser vaporization and enucleation of the prostate.

J. Travel expenses except those covered in the ambulance section of these General Terms and Conditions.

K. Any kind of refractive surgery (for myopia, hypermetropia and astigmatism) is excluded.

L. The following human medicines:

- **Those administered to the patient outside of hospital or in a day hospital, except chemotherapy administered via parenteral by a healthcare professional in appointed centres and using bladder instillation in the case of MITOMICINA and BCG. Medication in ventilation therapy or aerosol therapy, as well as over-the-counter products.**

- **Medicinal products not on the market in Spain.**

- **The following special medicines:**
  - **Vaccines/autogenous vaccines and other biological medicinal products**
  - **Medicines of human origin**
  - **Advanced therapy medicinal products (gene and cell)**
  - **Medicinal plant products**
  - **Homeopathic medicinal products**
  - **Medicines intended for cosmetic purposes.**
  - **Radiopharmaceuticals for therapeutic purposes, except as specified in the section on Nuclear Medicine.**
  - **Adoptive cell transfer (ACT) techniques are excluded, including CAR-T, TIL, TCR-T, CAR-NK and similar therapies.**

All pharmacokinetic studies are excluded.

M. **Water birth, homebirth and alternative childbirth techniques are expressly excluded.**

N. Bariatric surgery is excluded in obesity and metabolic surgery is excluded in diabetes, and gastric balloon and endoscopic treatments for obesity are also excluded.

Ñ. **Sclerosis treatments with foam and microfoam in the Angiology and Vascular Surgery speciality and any other speciality are excluded.**

O. Treatment with High lintensity Focused Ultrasound (HIFU) is excluded.

Clause IV: Qualification periods

All benefits which under this policy are assumed by the Insurer, on the basis of the approved medical network, will be provided from the time this contract becomes effective. **HOWEVER, THE FOREGOING GENERAL PRINCIPLE DOES NOT APPLY TO MEDICAL, SURGICAL AND/OR HOSPITAL HEALTHCARE IN THE EVENTS DETAILED BELOW, TO WHICH SHALL APPLY THE SPECIFIED QUALIFICATION PERIODS:**

Qualification Periods for the modality of Contracted Medical Network:

- **Vasectomy and tubular ligation: 10 Months**
- **Psychology: 6 Months**
- **Complex diagnosis tests as defined in the glossary: 6 Months**
- **The complex therapeutic methods as defined in the glossary: 10 Months**
- **Group 0 to II operations, as classified by the Spanish Medical Colleges Organisation: 3 Months**
- **Child delivery or caesarean except premature birth (less than 37 weeks): 8 Months**
- **Hospitalisation and group III to VIII operations, as classified by the Spanish Medical Colleges Organisation: 10 Months**

The above qualification periods do not apply to accidents or illnesses that are life-threatening, unexpected and diagnosed after the date the corresponding cover takes effect, provided the care is covered by the insurance policy. Including cases of premature childbirth (before 37 weeks).

Clause V: Form of service provision

1. Through the contracted medical network

Care shall be provided according to healthcare regulations applicable, by professionals with sufficient qualifications for each specific service and belonging to the contracted medical network corresponding to this insurance product. Where one of the services included in the cover of this policy does not exist in the town where the Insured is located, it shall be provided in another region through the healthcare provider that the Insured chooses in each case. **When a certain treatment or surgical or diagnostic method is not included in the insured cover, the medical care services that must be provided as a result of undergoing the aforementioned treatment or method shall not be included in the insured cover either.**

On receiving applicable services, the Insured must present his/her SANITAS card. Also the Insured must show his/her National Identity Document, if such was required. Each time the Insured receives a service covered by this policy, he/she must pay, in the concept of participation in the cost of such service, the amount that is established in the Particular Terms and Conditions.

SANITAS must provide Insured cover under the terms established in the policy and is not bound by the decisions that professionals may make, whether or not they belong to its medical network or are included in this Insured cover.

The care may be provided in different ways, depending on the service to be given:

1.1. Free access.

Insureds may freely attend consultations with specialist doctors, as well as visit the emergency departments that form part of the network of healthcare providers agreed with SANITAS for this product. **Please refer to the 'Guide to Doctors and Services' to find out which specialists require a prescription or authorisation.**

1.2. Prior prescription for the performance of the service

Diagnosis tests, therapeutic methods, and certain care services will require, for their performance, written prescription by a physician belonging to SANITAS medical network.

Particularly, Psychology consultations must be prescribed by a Psychiatrist, General Practitioner, Oncologist or Paediatrician.

1.3. Prior prescription and authorisation for the performance of the service.

As a general rule, for surgical operations, inpatient treatment and counselor professionals, prior express authorisation by SANITAS shall be needed, after the written prescription of the professionals belonging to SANITAS network. Such authorisation shall be also needed for certain therapeutic methods, diagnosis tests and other care services, whenever such is said in the General Terms and Conditions of the policy. The authorisation voucher shall not be valid if at the moment of receiving the service, the Insured is not fulfilling all the requirements established in the General Terms and Conditions of his/her policy to access to the full Insured coverage relating to the service indicated in such authorisation voucher (i.e. no being current on payments of the premium, preexisting condition not declared, if the policy is not in force when the service is provided, etc.).

1.4. Prior authorisation for the service to be performed by expressly accredited professionals

Any laparoscopic or arthroscopic surgical procedures and those involving radiofrequency or laser techniques must be performed by professionals specifically arranged and accredited by SANITAS to

perform this type of specific surgical technique.

1.5. Prior authorisation and express designation of the physician

In particular, for highly complex surgical procedures, such as: neurosurgery, cardiac surgery, breast surgery, spinal surgery, etc., which are covered by this policy, SANITAS will designate, in each individual case and prior to the specific surgical procedure being carried out, the healthcare centre and the professionals who are going to perform it.

1.6. Services at the Insured's home.

SANITAS undertakes to provide home services in those localities where it has an arrangement for the provision of this service. **Any change of the Insured's home address must be reliably notified** with a minimum of eight days' notice before requiring any service.

Services provided in the Insured's home are those relating to the specialties of Family Medicine, Paediatric Medicine, Emergency Care, Nursing, Special Home Care, Ambulance and Respiratory Therapies. All of these require a doctor's prescription except Family Medicine and Paediatric Medicine. SANITAS reserves the right not to provide the service when in the doctor's opinion it is not necessary.

Specifically, respiratory therapies must be prescribed by a specialist appointed by SANITAS. In all treatments, the Insured must renew the service prescription and authorisation from SANITAS with a variable frequency according to the type of device and sessions authorised in each case, except for CPAP and oxygen concentrators for patients already classified as chronic, who have indefinite authorisation that does not need to be renewed, except under exceptional circumstances (change of province of residence, change of policy).

1.7. Care in case of temporary displacement to Cantabria and Navarra.

In case of temporary displacement of the Insured to the mentioned Autonomous Regions the service included in the coverage shall be performed through the medical network of the Entities expressly contracted by SANITAS for such performance. The Insured must present his/her SANITAS card in the Offices of the contracted Entities, accepting the administrative steps of these Entities.

1.8. Emergencies

As specified in article 103 of the Insurance Contract Act, SANITAS provides the necessary care of an **emergency** nature in accordance with the policy Terms and Conditions and that in all cases shall be provided through the resources designated by SANITAS, expressly indicated in the User Guide to Doctors and Services for this product.

In cases of **life-threatening emergency, wherever the Insured needs to be admitted to a centre not included in the medical network, SANITAS must be reliably informed** of this admission as soon as possible so that it can transfer the Insured to a partner centre, provided his/her medical condition allows as such.

1.9. Care in providers not recognised by SANITAS.

Notwithstanding what is mentioned in the above paragraph for cases of life-threatening emergency, SANITAS shall not pay for the fees of professionals not belonging to its medical network, nor for the expenses of internment or services that such professionals could order. Also, SANITAS shall not pay, under the contracted medical network modality that is the object of insurance of this policy, for the expenses originated in private or public centres not contracted for this product, no matter who the prescribing or performing professional is.

2. Remote medical consultations

The Insured may access certain physicians and specialities from the partnered medical network to receive customised medical care via the video consultation and phone consultation services, hereinafter "Remote medical consultations".

In addition, the insured can access a 24-hour Emergencies service via video consultation.

2.1. Description:

- The service shall be provided by specialist physicians selected by SANITAS from within the SANITAS partnered medical network.

- SANITAS will provide information at all times at www.sanitas.es regarding the specialities and physicians who you can access via the remote medical consultations.

- This service shall always be provided after a previous appointment has been made and is not valid for emergency care, which shall be attended in SANITAS partner centres for due management. Subject to the availability of each specialist's schedule and opening hours. You can check these hours at Mi Sanitas. As an exception to the aforementioned, any emergency care that may be provided through the video consultation service will not require an appointment. For emergencies that, due to their nature, cannot be treated through the aforementioned services, the insured has access to the emergency services in the SANITAS partnered medical network.

- A service accompanied by the instant messaging functionality, during remote medical consultations and afterwards if the doctor considers it appropriate.

- Remote medical consultations may involve exchanging medical documentation that can be filed in the Mi Sanitas Health File at www.sanitas.es.

- SANITAS has adopted the legally required technical resources to guarantee due confidentiality of information exchanged in this fashion.

- In order to guarantee said confidentiality, recording images and sound from remote medical consultations or attaching them to any type of capturing medium is strictly prohibited. The full or partial copying, reproduction, distribution, dissemination, making available to third parties or any other way of publicly communicating, transforming or modifying by any means, whether electronic or any other, the image or sound obtained or produced during remote medical consultations is also strictly prohibited, without the express written consent of the physician concerned or Sanitas S.A. de Hospitales. However, the physician may keep a copy of remote medical consultation for the purpose of storing it with the clinical documentation.

- The service shall be provided exclusively to those Insured who expressly appear as registered as such on the policy. Each Insured must book an appointment to receive the service, except for remote medical consultation in 24-hour emergencies. Remote medical consultation must be customised for each Insured party.

- If the Insured is under 18 years of age, remote medical consultation may only be performed with the prior authorisation of the minor's legal representative.

- The Insured must have and shall be responsible for all technical (hardware and software) and remote communication means needed to guarantee the correct performance of remote medical consultation. SANITAS shall not be held responsible for any harm that may be caused due to failure of electronic devices, connections or shortfalls of these means on the part of the Insured.

- This form of consultation is simply to aid decision-making on the part of the physician and does not replace a face-to-face consultation or make it possible to diagnose diseases or prescribe diagnostic tests or medical treatments in cases where, in the doctor's opinion, the Insured must be present in the consulting room for a personal and direct assessment, including a physical examination of the

Insured by the specialist. The results of the face-to-face consultation will always prevail over any assessments and criteria performed in remote medical consultation.

- **Consultations performed through remote medical consultations by professionals not expressly authorised by SANITAS to attend the Insured through remote medical consultations are not covered, regardless of whether they belong to the SANITAS partnered medical network for this product or not.**

2.2. Procedure:

- The Insured must request this service via Mi Sanitas at www.sanitas.es or via the mobile app, except for the remote medical consultation in 24-hour emergencies.

- The Insured must connect to Mi Sanitas on the date and time of the appointment to establish contact with the doctor and begin the remote medical consultation and follow any other instructions provided by SANITAS at all times.

Clause VI: Other features of the insurance

1. Basis and loss of rights of the policy

1.1. The **present agreement** has been closed on the basis of the **declarations made by the Policyholder and the Insured in the health questionnaire included in the insurance application, where questions are made referring to the state of health of their health, profession, Insured's sport practices and in general those habits of life that can be of relevance for a correct assessment of the risk that is the object of the insurance by this policy being it essential that the Policyholder/Insured provides with complete truthful about the questions posed since these constitute the basis for the acceptance of the risk of the present agreement,** being the mentioned Insurance Application a constituent part of it.

1.2. The Policyholder's duty, before the conclusion of the contract, to declare SANITAS, according to the questionnaire it will submit all the circumstances known to him that might affect the valuation of risk. He is relieved of this obligation if SANITAS did not submit questionnaire or even when SANITAS did, there are circumstances that may influence the risk assessment and that are not included in it.

SANITAS may terminate the contract by declaration addressed to the Policyholder within a month, as of knowledge or inaccuracy of the Policyholder. They correspond to SANITAS except willful misconduct or gross negligence on its part, the premiums for the current period to the time to make this statement.

If the incident occurs before SANITAS makes the statement to which the preceding paragraph refers, the provision will be reduced proportionally to the difference between the agreed premium and that which would have applied had the true risk been known. If there was fraud or gross fault on the part of the Policyholder, the Insurer will be released from payment of the benefit (Art. 10 of the Insurance Contract Act).

1.3. Notwithstanding the foregoing, the Insured also loses the right to the guaranteed benefit, if the incident occurs before the premium has been paid unless otherwise agreed (Art. 15 of the Insurance Contract Act).

1.4. The Policyholder can terminate the agreement when the medical network is changed, providing the change affects to 50% of the consultants that are part of the national medical network of SANITAS, who will have available for the Insured, at all times, in SANITAS Offices, the complete and updated list of such consultants, for the Insured's information.

1.5. In the event of the Insured not stating his/her correct date of birth, SANITAS may only contest the policy if the Insured's true age exceeds the established limits for this when the policy comes into force.

1.6. Remote subscription of Insurance: As specified in Article 10 of the Distance Marketing of Financial Services Act 22/2007 of 11 July, **the Policyholder shall have a term of fourteen calendar days to terminate the remote subscribed contract, without having to indicate any reasons and incurring in no type of penalty, except for the cost on the services, where applicable, already provided.**

The term for exercising the right to termination shall begin on the date the Insured Contract is signed. However, where the Policyholder has not received the terms and conditions of the policy and the prior information note about the contracting of the Insurance policy, the term for exercising the right to terminate shall begin to count on the date on which said information note is received.

2. Maximum age for taking out the policy

The maximum age for taking out the policy is 75 years old. Only those who are under 75

years old can be included as Insureds on the policy, unless agreed otherwise and without affecting the maximum ages that may be set, where applicable, for additional or supplementary benefits on this Policy.

3. Duration of insurance

3.1. The Insurance Contract expiry date shall be established in its Particular Terms and Conditions and, at its expiry, in accordance with Article 22 of the Insurance Contract Act, it shall be extended tacitly for periods of one year. Nevertheless, either of the parties may repudiate extension by giving the other party due written notice not less than two (2) months before the date of expiration of the current period, if it is SANITAS that gives this notice and one month if it is the Policyholder who gives it.

3.2. If the insurance policy is terminated unilaterally at the discretion of SANITAS, it may not suspend the provision of cover while the Insured is undergoing hospital treatment, until discharge, unless the Insured waives to continue the treatment **or unless the policy is terminated due to fraud or gross negligence on the part of the Insured.**

If the insurance policy is terminated by the Insured, the covers will cease to have effect on the expiry date specified in the Particular Terms and Conditions of the policy, and the provisions of the preceding paragraph will not apply. Therefore, if the Insured is receiving some kind of Insured benefit at the time the policy expires, the cover Insured by SANITAS shall cease on said expiration date and it will not be obliged to pay for any cost as of said date, even those arising from a claim occurring during Insurance validity.

3.3. With regards to each Insured person, the insurance lapses due

a) To death.

b) Transfer of residence abroad or not residing a minimum of six (6) months in national territory. The premium shall correspond to SANITAS until the date on which the Insured communicates and credits such circumstance. SANITAS may require the Insured to provide the documents issued by the corresponding Spanish authorities considered necessary to prove residency in Spain, such as a tax residency certificate.

c) For any action of the Insured against healthcare or administrative staff that may violate the right to personal honor and dignity or may be a crime.

3.4. Persons under 14 years of age can only be included in the insurance if the persons that hold their custody or guardianship are also Insured, unless the parties agree otherwise.

4. Insurance premiums

4.1. The Insurance Policyholder must pay the premium when the contract is accepted. The cover in the contract will not come into force until the contract has been signed and the first premium has been paid.

4.2. The first premium shall be requested once the contract has been signed. Successive premiums shall be requested on their respective due dates.

4.3. The Policyholder can apply for the division of the payment of the annual premiums in biannual, quarterly or monthly periods.

In these cases, the corresponding surcharge shall be applied. The division of the premium does not exempt the Policyholder of his/her obligation to pay the complete annual premium.

4.4. If, due to the Policyholder's fault, the first premium is not paid, SANITAS is entitled to terminate the contract or legally demand payment based on the Policy. Where payment is not received before the claim arises, SANITAS shall be freed from its obligation, except where otherwise agreed and duly indicated in the Particular Terms and Conditions of the policy.

In the event of non-payment of the second or successive premiums or their divisions, SANITAS coverage shall be suspended one month after the due date of the premium.

Where SANITAS does not claim payment within the six months following said due date, the contract shall be considered terminated.

If the contract is not terminated or discharged according to the above mentioned conditions, the cover shall once again become effective twenty-four hours following the day on which the Policyholder pays the premium or, where applicable, suitable part payments thereof.

The Policyholder shall lose any agreed right to pay part of the premium in the case of non-payment of any receipt and shall, from that moment, be required to pay the full premium agreed to for the remaining Insurance period.

For premiums paid in installments, in the event of a claim, SANITAS may deduct from the amount payable or reimbursable to the Policyholder or Insured any premium installments for the current annual period not yet collected by SANITAS.

4.5. Where the parties stipulate the application of co-payments for certain benefits Insured by this policy, the amounts corresponding to said co-payments shall be specifically established in the Particular Terms and Conditions of the policy. Their amount shall be established each year by SANITAS. The provisions of this Clause in the event of non-payment of the second or successive premiums or part payments thereof shall apply in the case of non-payment of the amount of co-payment.

4.6. Except where otherwise specified in the Particular Terms and Conditions, the place of payment of the premium and co-payments, where applicable, shall be as indicated in the bank debit account order form.

To this end, the Policyholder shall provide SANITAS with the details of his/her bank account where the payment of the receipts for this Insurance are to be debited and shall authorise the bank to pay them.

4.7. The Insurer may modify the premium and the amount of participation of the Insured in the cost of services with each renewal of the Contract. This review is based on technical-actuarial criteria made and based on the variation in the cost of healthcare services, the type, the frequency of use of the benefits covered and the inclusion of technological medical innovations that were not covered on the initial effective date of the policy.

The premiums to be paid by the Policyholder will vary according to the age achieved by each of the Insured, the geographical zone corresponding to the place of performance of the services, the tariffs established by SANITAS on the date of renewal of each policy being applicable. Such variation of premiums shall be communicated in writing by SANITAS to the Policyholder with at least two months' notice with respect to the renewal date.

4.8. The Policyholder, after receiving notification from SANITAS about the **variation to the premium for the next year can choose to accept the Insurance Contract renewal for the premium proposed by the Insurer or terminate it when the Insurance term in progress ends, in the latter case notifying SANITAS in writing, at least one month before the expiry date, of your wish to terminate it.**

4.9. Payment of the amount of the premium made by the Policyholder to the insurance broker shall not be considered as made to SANITAS, unless the broker provides the Policyholder with the aforesaid Insurer's premium invoice in return.

5. Registering newborns

If the mother's care during childbirth is covered by the SANITAS insurance policy under which she was insured, newborn

children may be included in the policy with full cover from the date of birth, or when the father's enrolment as an Insured under the policy has taken effect at least 240 days prior to the birth. Therefore, the Policyholder must notify SANITAS of this circumstance within 30 calendar days of the date of birth, by completing an Insurance Application Form. If the Insured is only the father: under no circumstances will expenses be covered that are incurred prior to the mother's and the newborn's discharge from hospital following the birth.

In any case, **SANITAS will only cover the newborn's healthcare when and if he/she is included as Insured in SANITAS.** If the inclusion of the newborn is communicated once the term mentioned above has elapsed or without fulfilling all the requirements indicated in the paragraph above this, SANITAS by virtue of the information provided by the Policyholder in the Insurance Application can deny the inclusion of the newborn as Insured member.

In the event of gestational surrogacy, the Policyholder must notify SANITAS to add the child as an insured on the policy within 30 calendar days of registering the child on the Spanish Civil Register as the child of the insured/insureds. **The insured cover shall come into effect on the date the insured is added to the policy and any expenses incurred before adding the insured to the policy shall not be covered and the expenses incurred before the mother or newborn are discharged from hospital after the birth shall not be covered under any circumstances.**

6. Provision of reports

The Policyholder and Insured must provide SANITAS, whenever expressly required so to do, medical reports and/or providers cost estimates enabling the Insurer to determine whether the requested care is covered by the policy. SANITAS is under no obligation to cover the requested care unless and until it is supplied with such reports and cost estimates if the Insured is expressly required to supply them.

7. Complaints

7.1. Complaints control and procedure

a) Supervision of the business activity of SANITAS lies with the Spanish State and is exercised through the Directorate General for Insurance and Pension Funds of the Ministry of Economy, Trade and Business.

b) In case of any type of complaint in relation to the Insurance Policy, for the settlement thereof the Policyholder, Insured, Beneficiary, Aggrieved Third Party or Successor of any of these should proceed to address:

1. SANITAS Complaints Management Department, by means of a signed written complaint with the claimant's National Identification Document or a document accrediting their identity, addressed to **calle Ribera del Loira Nº 52 (28042 Madrid) or fax to 91 585 24 68 or to the email address reclamaciones@sanitas.es**, which will acknowledge receipt in writing and issue a reasoned written decision **within the statutory deadline of two months** from the date of filing the complaint, so long as it meets all the requirements sought, pursuant to Order ECO /734/2004, of 11 March, on the customer care departments and services of financial entities and the Customer Protection Regulation available at your disposal in our offices.

2. Once this internal process has been exhausted or in the event of disagreement with the decision of SANITAS, a signed written complaint, with the claimant's National Identification Document or a document accrediting their identity, may be lodged with **Complaints Service of the Directorate General for Insurance and Pension Funds, on paper or electronically with a digital signature, via its website**. Accordingly, the claimant must prove that the established period for the settlement of the complaint by SANITAS Complaints Management Department has expired, that the complaint

has been denied leave to proceed or has been dismissed.

3. Please be informed that SANITAS is not bound by any consumer arbitration board. The Insured may initiate administrative and legal proceedings as set down in the complaints procedure described in the General Terms and Conditions of their policy.

4. In any case, action may be brought before the relevant Courts.

7.2. Actions in connection to this Insurance Agreement shall be subject to a five-year time limit (Article 23 of the Insurance Act).

8. Other important legal points

8.1. Subrogation

Once payment of the covered benefit has been assumed, SANITAS may exercise the rights and actions corresponding to the Insured due to the claim caused with regards to the persons responsible for it, up to the limit of compensation paid.

The Insured must sign the necessary documents for subrogation in favour of SANITAS.

8.2. How to accept the Terms and Conditions

SANITAS will send the Policyholder an email at the address provided in the application form, which will include a link for registering on the website and choosing a security ID.

Any notifications sent by an insurance broker on behalf of the Policyholder will have the same effect as if they were sent by the Policyholder, unless the latter specifies otherwise.

After receiving the password, the Policyholder must go to www.sanitas.es, where the General and Individual Terms and Conditions of the policy are available, which he/she must accept using a code that will be sent to the mobile phone number provided in the insurance application form. For all intents and purposes, using the security ID will be legally equivalent to the policyholder's written signature. **SANITAS may refuse to provide the Insured cover if the Policyholder does not accept the Policy terms and conditions.**

8.3. Notifications

8.3.1. Notifications to SANITAS on the part of the Policyholder, the Insured or Beneficiary **shall be sent to the Insurer's registered office as stated in the policy.**

8.3.2. Notifications from SANITAS to the Policyholder, Insured or Beneficiary will be sent to the physical or electronic address or to the phone number provided by the Policyholder for each of them when filling out the insurance application form, unless they notify any changes. The Policyholder authorises SANITAS to send any notifications via electronic means, provided that it is permitted by law.

8.3.3. The Policyholder authorises SANITAS to use his/her mobile phone number and email address to send all notifications, communications and information associated to the policy and to request consent/authorisation for certain medical services via electronic means, provided that it is permitted by law.

8.3.4. The Policyholder accepts the full validity and effectiveness of any notification sent by SANITAS to their home, email address or telephone number provided in the insurance application form, until notified of any changes.

8.3.5. The policyholder accepts the terms and conditions above on his/her behalf and on behalf of the insureds on the policy.

8.4. SANITAS guarantees freedom of choice to its policyholders regarding the service provider, within the limits and conditions set out in the Policy. To this end, the Insurer provides SANITAS with a comprehensive list of service providers to ensure genuine freedom of choice.

SANITAS is liable for the effective cover provided under the Policy, in accordance with the terms and within the limits agreed therein; it is the responsibility of the healthcare professionals or centres providing the service, freely selected by the Insured, to be accountable to the Insured for the proper performance of the medical procedures carried out under such cover.

9. Data Protection clause

Personal Data will be processed, including, but not limited to, identifying and health data (hereinafter, "**Personal Data**") belonging to the Applicant, the Policyholder and the Insured Parties (hereinafter, "**the Data Subjects**") and provided through the insurance application, in addition to those collected and provided during the term of the contract. Any Personal Data is confidential and adequately protected. The Applicant and/or Policyholder warrants that all the information relating to the Policyholder and the Insured Party(ies) provided to SANITAS is true, and no information regarding the health status of each of the Insured Parties has been omitted. The Applicant will be solely liable for any direct or indirect loss or damages that they could cause Sanitas or any third party due to the documentation provided to SANITAS containing false, inaccurate, incomplete or outdated information.

The Policyholder is responsible for communicating to all the Insured Parties covered by the policy the information contained in this Personal Data processing clause, so that both the Policyholder themselves and the Insured Parties can exercise the rights described in the section "Rights of the Policyholder/Insured Parties".
In addition, the Applicant/Policyholder declares that they are acting on their own behalf and that of the Insured Parties when they consent to the processing described in this clause. Likewise, the Applicant/Policyholder declares that the Insured Parties understand and agree that they have provided or will provide their Personal Data to Sanitas, as well as Sanitas providing the Applicant/Policyholder with identifying information about the medical services for the Insured Parties covered by the policy. This is unless the Policyholder releases Sanitas in writing of its legal duty to inform them or this is requested by any of the Insured Parties.

In the case of a collective policy, the Sanitas' client entity (which may coincide in some cases with the Policyholder) and Sanitas may provide to each other, in a timely manner and on a strictly need-to-know basis, the minimal and essential identification data of the Insured Parties with the sole purpose of verifying that they meet the characteristics allowing them to benefit from the policy agreed between the Sanitas client entity and Sanitas, and/or to monitor insured events and consequently agree the insurance premium to be applied. The Sanitas client entity is responsible for communicating this situation to all the Insured Parties. Such data processing is necessary for the correct implementation and development of the insurance contract.

9.1. Personal Data Controller

The Personal Data Controller is SANITAS, SOCIEDAD ANÓNIMA DE SEGUROS, whose registered address is at C/ Ribera del Loira, 52, 28042, Madrid, Spain (hereinafter, "**Sanitas**"). Data Subjects may contact the Data Protection Officer (hereinafter, the "DPO") of the Sanitas Group via the email address "dpo@sanitas.es" or at the abovementioned postal address for any queries or requirements that they may have regarding personal data protection.

9.2. Main purposes and lawfulness of processing Personal Data

(a) **Formalising, developing, and implementing the insurance contract**. Processing Personal Data is necessary to finalise the contract between the Applicant/Policyholder/Insured Parties and Sanitas, as well as for running, developing and implementing the contractual relationship, consisting, among other things, of managing and supporting the Data Subjects' health care. Thus, Sanitas will process the Data Subjects' Personal Data, among other things, to manage the relationship with them, manage the policy

etc. and, in certain cases, it may make automated decisions based solely on the analytical procedures used for such purposes. In these cases, the Data Subjects through the channels referred to in paragraph "Rights of the Policyholder/Insured Parties" will have the right to review and challenge the decision, as well as to request human intervention. Sanitas may process Personal Data, including health data, to conduct customer satisfaction surveys about the services received as a result of the contractual relationship as well as to manage coinsurance, where applicable. This purpose is based on the need for processing to implement these terms and manage health and social care systems and services.

(b) **Financial solvency analysis**. Sanitas may process the Applicant/Policyholder's Personal Identification Data to consult credit report file systems as a step for analysing financial solvency, as well as for preventing and detecting possible fraudulent conduct, based on Sanitas' legitimate interest in taking the necessary measures to identify and manage the above.

(c) **Technical analysis**. Sanitas may process Personal Data to conduct statistical analyses regarding the operation of the technology supporting the services provided, in order to make technical, security improvements, etc. To do this, Sanitas may use the information they generate when using the technological resources placed at their disposal to improve quality, correct errors, improve usability, etc., based on Sanitas' legitimate interest in improving the quality of its technological resources.

(d) **Managing the provision and coverage of the healthcare service which is the subject to the insurance contract**, and to this end being able to request and obtain information regarding their health from healthcare professionals. Sanitas will process the Policyholder's/Insured Parties' Personal Data to manage the provision of the services which are the subject matter of the contract consisting, among other things, of making the appropriate payments to health providers or reimbursing the insured party or its beneficiaries for the costs of healthcare. For this purpose it may share Personal Data, including health data, with the healthcare professionals providing the healthcare service, requesting and obtaining from these professionals information regarding their health, in particular to assess the coverage and the appropriate payment or reimbursement for the services provided. In addition, as part of managing the provision and coverage of the healthcare service subject to, among other things, supporting the Policyholder/Insured Party in caring for their health, Sanitas may prepar profiles based on their Personal Data, including health data, to provide personalised information, such as recommendations and advice that will assist the Policyholder/Insured Party in taking care of their health. This purpose is based on the need for processing to implement these terms and manage health and social care systems and services.

(e) **Research for designing models of assistance which are the subject matter of the insurance contract**. Sanitas may process the Personal Data, including health data, of the Policyholder/Insured Party to develop profiles allowing it to design assistance models in accordance with the aforesaid profiles, for the purposes of taking preventive health steps regarding the Policyholder'/Insured Party as part of the object of the insurance contract. This purpose is based on the need for processing to implement these terms and manage the provision of health services and treatment.

(f) **Offering and managing health prevention and service programs under the insurance contract**. Sanitas, thanks to the analyses and profiles performed and as part of the healthcare support provided to the Policyholder/Insured Party will offer them the healthcare service and prevention programs designed in

accordance with the above section. Offering and managing the healthcare service and prevention programs will be carried out taking into account the Policyholder's/Insured Party's specific characteristics and needs. Therefore, Sanitas will be required to process their Personal Data, including their health data, in order to offer and manage the different healthcare models specifically tailored to the Policyholder/Insured Party. This purpose is based on the need for processing to implement these terms and manage the provision of health services and treatment.

(g) **Manage the provision of the health promotion service which is the subject matter of the insurance contract**. As part of Sanitas' health care support under the existing contractual relationship, Sanitas needs to process the Policyholder's/Insured Party's Personal Data in order to manage the design of specific health management plans for every Policyholder/Insured Party. To this end, Sanitas, as a result of profiling based on the Policyholder's/Insured Party's Personal Data, manages the preparation of personalised health plans and proactive monitoring programs, supports the management of complex cases (such as serious illnesses or prolonged hospitalisations), manages healthcare provision to chronic patients and also emergency care. This purpose is based on the need for processing to implement these terms and manage the provision of health services or treatment.

(h) **Manage access to and use of the "Mi Sanitas" tool made available as a result of the insurance contract.** Sanitas may process the Policyholder's/Insured Party's Personal Data in order to manage and provide them with access to "Mi Sanitas" (an insurance management portal) as well as ensuring its correct operation, either through the website or the application developed for this purpose. Sanitas, in the context of using "Mi Sanitas", will process Personal Data to, among other things, offer health recommendations, place at the Policyholder's/Insured Party's disposal receipts and refunds, manage their appointments, etc. This purpose is based on the need for processing to implement these terms and manage the health and social care systems and services. Furthermore, Sanitas makes a "Health File" service (accessible through "MiSanitas") available to the Policyholder/Insured Party so that they can request that Personal Data, including health data (e.g. medical reports or diagnostic tests), be transferred and archived in a tool used exclusively by the Policyholder/Insured Party. However, if the Policyholder/Insured Party decides to use this service, privacy information will be provided to them separately.

(i) **Allow Sanitas to manage the provision of the video consultation service.** Sanitas will process, and where appropriate, assign to the third parties designated by the Policyholder/Insured Party, their Personal Data to provide the video consultation, chat or other services, made available by Sanitas to the extent that they form part of the Policyholder's/Insured Party's insurance benefits. Thus, the Policyholder/Insured Party may, through the programs and applications downloaded for this purpose, communicate remotely with health personnel and provide documentation in order to address any queries that they may have in the context of the medical assistance services provided by Sanitas. This purpose is based on the need for processing to implement these terms and manage health and social care systems and services.

Likewise, Sanitas will be able to manage the recording of the video queries taking place arising from using the "24-hour emergency" service in order to be able to manage any eventual claims made by the Policyholder/Insured Party in relation to the service received through the video consultation. This is based on the need for processing for the purpose referred to and satisfying Sanitas' legitimate interest in preserving the documentation allowing it to attend to the queries and possible claims made by the Policyholder/Insured

Party. Sanitas may also manage the recording of video queries that are not carried out within the framework of the "24-hour emergency" service in order to improve the quality of the service supplied, provided that it has their consent.

(j) **Actuarial risk management**. Sanitas will need to process the Policyholder's/Insured Party's Personal Data, including health data, in order to conduct a statistical-actuarial analysis both to determine the associated risk and for charging for customer and potential customer's policies, either prior to the signing of the insurance contract or during its term of application in accordance with the Insured Party's new circumstances or any changes to the actuarial grounds. This purpose is lawful since the processing is necessary in order to comply with a legal obligation imposed by the regulations governing insurers and reinsurers; and for managing health and social care systems and services.

(k) **Recording telephone conversations between the Data Subjects and Sanitas in connection with this policy**. These recordings will be carried out to be used in Sanitas' quality control processes, in order to improve the quality of the service provided to the Data Subjects, based on Sanitas' legitimate interest in upholding its quality control processes and managing its health and social care systems and services. Likewise, Sanitas may use these recordings, if any, as evidence regarding any claim that may arise between the parties, in every case treating as confidential the conversations held, based on Sanitas' lawful interest in formulating, exercising and/or securing its defence against claims, and the need for processing to ensure it. The Data Subject may request from Sanitas a copy or written transcription of the content of the conversations recorded between the two through the channels indicated in the section "Rights of Data Subjects".

(l) **Complying with the obligations imposed on Sanitas by legal mandate.** On certain occasions, Sanitas will need to process the Applicant's and/or Policyholder's/Insured Party's Personal Data to comply with certain legal obligations. Among other things, Sanitas will process Personal Data in order to comply with the obligations set out in the insurance regulations, laws and the regulations on personal data protection currently in force. This purpose is lawful since processing the data is necessary in order to comply with the legal obligations applicable to Sanitas; and for managing the health and social care systems and services.

(m) **Profiling for the purpose of marketing and improving the business services provided by Sanitas.** In order to offer the Applicant and/or the Policyholder/Insured Party the products and services that best suit their interests and needs, Sanitas may create profiles based on the Applicant's Policyholder´s/Insured Party´s Personal Data, including their health data, in order to ensure that their experience with Sanitas is as tailored to them as possible and to continue customising it while providing the service which is the subject matter of the insurance contract. These profiles will be outlined in accordance with the Personal Data of the Data Subjects available to Sanitas, for example the type of insurance contracted, allowing Sanitas to select the products or services best adapted to the Data Subject, and thus being able to customise their experience. In particular, the above will be carried out to:

- Manage and send commercial communications based on the Applicant's and/or Policyholder's/Insured Party's profile by any channel, including electronically, about products and services similar to the insurance contract. This purpose is lawful based on Sanitas' legitimate interest in providing information about its services, news, offers, etc. that best suit the Applicant's and/or Policyholder's/Insured Party's profiles, related to the contracted services and for managing health and social care systems and services. In

cases where an insurance policy has not been contracted with Sanitas, the purpose is lawful based on the consent of the data subject, since the processing will be carried out with prior authorisation.

- Send commercial communications based on the Applicant's and/or Policyholder's/Insured Party's profiles by any channel, including electronically, about new products and services. This purpose is lawful based on the consent of the data subject since the processing will be performed with prior authorisation.
- Allow Sanitas to send commercial communications based on the Applicant's and/or Policyholder's/Insured Party's profiles by any channel, including electronically, about third-party products and services. This purpose is lawful based on the consent of the data subject, since the processing will be performed with prior authorisation.
- Anticipate the Policyholder's/Insured Party's health needs, to improve the services provided and offered to them, including, for example, ascertaining when it is necessary to increase resources for the personalised care of the Policyholder/Insured Party. This purpose is lawful based on Sanitas' legitimate interest in providing the best possible services by supporting the Policyholder/Insured Party in taking care of their health, and the need for the processing to manage the health and social care systems and services.

(n) **Carry out procedures to anonymise and pseudonymise the Policyholder's/Insured Party's Personal Data, including their personal health data, for marketing purposes, improving the relationship with them, and for scientific and/or statistical research.** Sometimes, Sanitas may apply certain procedures to the Policyholder's/Insured Party's Personal Data in such a way that either it will be impossible to find a link between an identified or identifiable natural person and the Personal Data processed, or said Personal Data cannot be attributed to a particular person without using additional information appearing separately. These procedures will be applied so that the anonymised or pseudonymised data can be processed for scientific or statistical research purposes, or in order to be able to identify individual health status trends, establish patterns of disease, etc., as well as to understand which services may best fit certain groups and be able to inform them of this. This treatment is lawful since it is based on Sanitas' legitimate interest and its need to manage the health and social care systems and services, as well as on the basis of the requirement for scientific and/or statistical research purposes.

(o) **Assign Data Subjects' Personal Data to Group Companies**, to:

- Send commercial communications about products and services of said group companies based on the Policyholder's/Insured Party's profiles by any means, including electronically, based on the consent granted by the Data Subject.
- Anticipate the Policyholder's/Insured Party's health needs, developing the Group's company profiles and carrying out statistical analyses in order to improve the services provided by the Group's entities to be able to offer them to the Policyholder/Insured Party, in accordance with their particular characteristics, based on the consent granted by the Data Subject.
- Internal administrative purposes, based on Sanitas' legitimate interest in transmitting personal data within its business group for this purpose, which includes processing Personal Data.

(p) **Assign Personal Data to third parties.** Sanitas may assign the Data Subject's Personal Data to any other entity with which they establish collaborative links to improve the effectiveness of the contractual relationship with the Data Subject. In particular, the categories of recipients, identified in the Additional Information, who may receive Personal Data will be, among other things, co/insurers and reinsurers, insurance

brokers, entities with which a commercial link is established, health professionals, medical centres and hospitals. Assignments will be made for:

- Risk reinsurance purposes, based on Sanitas' legitimate interest in managing the risk assumed, and the need for processing to manage the health and social care systems and services.
- Sending commercial communications about third-party products and services by any channel, including electronically, based on the Applicant's and/or Policyholder's/Insured Party's profiles, based on the consent granted by the Data Subject.
- Analyse the use of Sanitas' websites and applications, based on the consent granted by the Data Subject.

9.3. Admissibility of Personal Data

The origin of the Personal Data processed by Sanitas may vary from case to case. In particular, Sanitas may process Personal Data, including health data that (i) the Applicant/Policyholder and/or Insured Party provides through the corresponding forms; (ii) has been generated as a result of the service provided by Sanitas and; (iii) which Sanitas has obtained through brokers, insurance agents or third-party collaborators.

9.4. Time Personal Data is kept

Sanitas will process the Data Subjects' Personal Data and keep it for the duration of the contractual relationship between Sanitas and the Policyholder/Insured Party or until the applicable legal obligations expire. For those purposes where the Data Subject has consented to their Personal Data being processed or where there is the possibility of objecting, Sanitas will stop processing the Personal Data, for that particular purpose, immediately following the withdrawal of consent or the exercise of the right to object. All of the above is without prejudice to the subsequent conservation that is necessary to formulate, exercise or defend against potential claims, comply with obligations to preserve clinical documentation, provided that it is permitted by applicable legislation or to make the Personal Data available to judges and courts, the Public Prosecutor's Office or public bodies. During this additional period, Sanitas will keep the Personal Data blocked. Once the abovementioned period has come to an end, Sanitas undertakes to cease processing all the personal data. Notwithstanding all of the above, where necessary Personal Data may be held for longer periods provided that it is processed exclusively for health care, medical, scientific and/or statistical research purposes and taking into account the specific case.

9.5. Accessing Personal Data

The optimal service delivery that Sanitas offers may require that its **third-party providers** access the Data Subject's Personal Data as processors. Data Subjects understand that some of these service providers are located in countries outside the European Economic Area or do not offer a level of security equivalent to that in Spain. To ensure that the Personal Data is processed with a level of protection equivalent to that which already exists, Sanitas has adopted the appropriate safeguards. These international transfers are made under the protection of an adequacy finding of the European Commission, providing sufficient guarantees recognised by the regulations (such as standard contractual clauses), or the authorisation of the Spanish Data Protection Agency, complying with appropriate security measures. More information can be found in the International Data Transfers Section of the Additional Information. To obtain a copy of said authorisation, you can contact Sanitas by the means set out in the section "Rights of Insured Parties".

In addition to the access that third-party, national or international, providers as data processors may have to the Personal Data for which Sanitas is responsible in the context of providing a service, Sanitas will assign Personal Data to other entities, as specified in the section "Main purpose and lawfulness of Personal Data processing".

In addition to the above, the Data Subjects understand that Sanitas may make assignments or communicate Personal Data to meet its obligations to Public bodies in

cases in which it is required to do so in accordance with the legislation in force from time to time and, where appropriate, also to other bodies such as the State Security Forces and Bodies and Judicial Bodies. In addition, the Policyholder/Insured Party understands that Sanitas may request, require, and share their Personal and Health Data from professionals or health facilities, hospitals, with entities with which it has a co/reinsurance or collaborative relationship. They therefore understand that it will be necessary to provide each other with their Personal Data, to manage reinsurance, coinsurance, comprehensive care programs, share best practices and assess the risks to be covered, to prevent fraud, determine healthcare, make payments to health care providers or reimburse the Policyholder/Insured Party for healthcare costs and the costs of any claims submitted by the Policyholder/Insured Party themselves.

9.6. Rights of Data Subjects

Sanitas informs Data Subjects about their ability to exercise the rights to **access, rectify, object, erase, portability and limit processing** as well as to refuse the automated processing of any Personal Data collected by it. Such rights may be exercised free of charge by the Data Subjects, and where appropriate by the person representing them, by written and signed request -a copy of their ID card or equivalent document proving their identity may be requested- addressed to: Calle Ribera del Loira no 52, 28042, Madrid, Spain, Att. LOPD Insurance. The Policyholder/Insured Party may also exercise their rights through Mi Sanitas http://www.sanitas.es/RGPD. Data Subjects may also exercise their rights through the forms provided for this purpose in the Additional Information section, in the subsection "Data Protection Rights". A more detailed explanation of the rights can also be found in this section. Where the Data Subject has a representative, this must be proven by a written document, attaching a copy of their ID or an equivalent document proving the representative's identity or other supporting documentation as indicated in the "Rights" section under Additional Information.

In addition to the above rights, Data Subjects will have the right to **withdraw any consent given** at any time through the procedure described above, without such withdrawal of consent affecting the lawfulness of the processing prior to the withdrawal of the same. Sanitas may continue to process Data Subjects' Personal Data to the extent permitted by any applicable law. Sanitas reminds Data Subjects that they have the right to **present a claim before the relevant supervisory authority.**

Notwithstanding the above, Sanitas informs the Data Subject that they have at their disposal an internal conflict resolution system in which the Data Protection Officer takes an active role as a mediator attempting to manage as flexibly as possible, any claim that the Data Subject sends to the postal address or electronic mail indicated in the section "Personal Data Controller". Sanitas encourages the Data Subject to contact the Data Protection Officer prior to making a complaint to the relevant supervisory authority.

9.7. Unsubscribing from the commercial communications mailing service

As mentioned in the section above, the Data Subject has the right to revoke at any time the consent given for the sending of commercial communications by notifying Sanitas that they do not wish to continue to receive them. To do this, the Data Subject may either revoke their consent in the manner described in the section above or click on the link included in each commercial communication, thereby cancelling the sending of electronic commercial communications.

9.8. Minors

In general, Sanitas will only process the Personal Data of children under the age of eighteen when their parents or legal guardians have given their consent for such processing, when it is necessary to implement the insurance contract or to comply with a legal obligation and/or satisfy a lawful interest of Sanitas.

However, in accordance with current regulations, those over the age of 14 (or the age that may be legally set for this purpose) will have the right to access their own medical information and those rights recognised by law.

9.9. Additional Information

Sanitas at www.sanitas.es/RGPD, under the section "Sanitas Insurance", makes available to the Applicant, Policyholder and Insured Party Additional Information about the processing of their Personal Data and invites them to consult it.

9.10. Amending the Privacy Policy

Sanitas may change its Privacy Policy in accordance with applicable legislation from time to time. At all events, any amendments to the Privacy Policy will be duly notified to the Data Subject to inform them of any changes made to processing their Personal Data and, if the applicable regulations so require, to request they consent to it.

10. Jurisdiction

The Court competent to hear actions arising from the insurance contract shall be the one corresponding to the Insured's address in Spain.

11. Prevention of money laundering and financing of terrorism

SANITAS shall not undertake any service in the Insured cover of this policy if this constitutes an infringement of Spanish, United Kingdom, European Union, United States of America, or international laws in general, reserving the right, in the corresponding cases, to cancel the membership of the Insured affected by said offense. Similarly, you may reject the inclusion of a new Insured, if this may lead to a breach of any of these laws.
